GRADUATE PROGRAM OBJECTIVES

The Lehman College Graduate Curriculum prepares its graduates to:

Program Objectives

1. Synthesize knowledge from nursing, natural, social, and human sciences as the foundation for improving practice outcomes and developing an evidence-based approach to professional practice.

2. Demonstrate ways of knowing through research, analysis, evaluation of nursing theory, reflective practice, and implementation of best practices.

3. Demonstrate leadership role development through clinical expertise, negotiation and collaboration with multiple stakeholders.

4. Develop inter-subjective awareness of health care systems in addressing the needs of culturally diverse populations, providers, and other stakeholders.

5. Contribute to the advancement of healthcare policy and practice through the analysis of large complex systems and collaboration with others using theory, research and clinical knowledge.

6. Collaborate with other healthcare professionals and community members to identify and analyze ethical, legal and social issues in health care practices, research, and policies.

7. Demonstrate specialized strategies and skills, including technology, in facilitating complex decision making in the delivery of quality care.
