Got an iPhone? Lehman's Got an App

BRONX, N.Y. — Lehman College announced today the availability of a free iPhone application featuring news, sports, events, an interactive campus map and other College-related information.

The free app can be downloaded at the [iPhone App store](#) and will run on v. 3.1.2 or higher of the phone's software.

"Most of our students are using iPhones and other mobile devices," said Vice President for Enrollment Management Dr. Robert Troy. "We wanted to give them, as well as our alumni, faculty and the larger community, a way to access College resources while they're on the go, with just a tap on their phone."

These are some of the features of the new app:

- **Directory**, with information about academic departments, athletics, and student services and the ability to pinpoint locations and office hours and then tap to call.
- **Interactive campus map**, allowing users to zoom in and out from three different perspectives.
- **Photo gallery**, with pictures of Lehman's historic campus, as well as athletics events and student activities.
- **Video gallery**, providing access to Lehman's YouTube channel and videos on College research, campus life and events.
- **Event calendar**, which accesses continuing education course offerings, upcoming Performing Arts Center events, and the schedule of athletics competitions.
- **Course Search**, allowing current and prospective students to search through the hundreds of undergraduate and graduate courses offered at Lehman.
- **CUNY Portal Access**, which gives current Lehman students access to the CUNY Portal log-in.

Plans are underway to roll out Droid and Blackberry apps next year.
