

**Senate Meeting – April 6, 2016**  
**Graduate Studies Proposed Report**

On behalf of the Grad Studies Committee, I'd like to put forth items from the following departments:

Department of Counseling, Leadership, Literacy and Special Education

- Change in admission requirements – adding GRE requirement for MSED/literacy programs
- MSED/educational leadership program – change in curriculum (credits) and removal of specific admission deadline date

Department of Middle and High School Education

- MSED/science education – change in curriculum (replacing ESC 755 with ESC 536)

Does anyone have any questions and/or comments?

All those in favor of approving these proposals, please say I. Anyone opposed? Any abstentions?

Although the following proposal originally was included on the agenda, I am removing it for the time being, since additional revisions need to be made.

Continuing Education

- MA/liberal studies program – change in curriculum – adding a non-thesis option

Our next meeting is May 4, 2016, at 11 a.m. in Carman B33A – if necessary.
