The meeting was called to order by President José L. Cruz at 3:34 p.m.

1. Approval of the Minutes

The minutes of the December 7, 2016 Senate meeting were approved by unanimous voice vote.

2. Announcements and Communications

a. Report of the President

President Cruz welcomed all to the Senate and indicated that he would send out a campus-wide email with an update on current issues and activities. He also mentioned that he had recently met with the CUNY Board of Trustees. President Cruz announced that, from a CUNY budget of \$20 million in capital funds for projects, the Board authorized the allocation of \$12 million to Lehman College for the construction of the Nursing Education, Research and Practice Center.

42 **b. Student Legislative Assembly**

43 Ms. Leonora Gocaj announced that the Student Government Association has organized a
44 senior ball, which is currently scheduled to be held on April 26, 2017. Ms. Gocaj also
45 announced that the Assembly will be working closely with the Provost/Senior Vice President
46 for Academic Affairs, Harriet Fayne, and the Vice President for Student Affairs, José
47 Magdaleno, to arrange for additional courses to accommodate student demand.

48

49 **REPORTS OF STANDING COMMITTEES**

50

51 **1. Graduate Studies**

52 Prof. Janet Desimone presented a proposal for curriculum changes in the Music Department.
53 The proposal was approved by unanimous voice vote. Prof. Desimone also presented an
54 informational item regarding an experimental course in the Department of Earth, Environmental,
55 and Geospatial Sciences.

56

57 See Attachment I

58

59 The next meeting is scheduled for Wednesday, March 8, 2017 at 11:00 a.m. in Carman B33A.

60

61 **2. Governance**

62 Prof. Duane Tananbaum presented two items for recommendation by the Senate: (1) A Senate
63 Governance Documents amendment, which specifies the process for addressing the designation
64 of administrative representatives in situations where there may be too few or too many
65 administrators available to operate properly; (2) A Lehman College Senate Bylaws amendment,
66 which addresses issues raised by leaves taken by senators and members of the senate committees.
67 The proposed amendment to the Senate Governance Documents was approved by unanimous
68 voice vote. The proposed amendment to the Lehman College Senate Bylaws was approved by
69 voice vote.

70 See Attachment II

71

72 **3. Admissions, Evaluations and Academic Standards**

73 There was no committee report.

74

75 **4. Undergraduate Curriculum**

76 Prof. Vincent Prohaska presented proposals for curriculum changes in the following areas:
77 Disability Services; Health Sciences; Latin American, Latino and Puerto Rican Studies; and
78 Music. All were approved by unanimous voice vote. Prof. Prohaska also presented an
79 informational item regarding an experimental course in the Department of Biological Sciences.

80

81 See Attachment III

82

83 The next meeting was scheduled to be held on Wednesday, February 15, 2017 at 1:00 p.m. in
84 SC 1405A.

85

86 **5. Academic Freedom**

87 Prof. David Manier provided background and a status update regarding the Senate's charge to
88 the Committee, which is to provide a proposed resolution to the CUNY Freedom of Expression
89 Policy, based on the principles of the University of Chicago Statement on Freedom of
90 Expression, with the goal of, ultimately, recommending its adoption by the Senate. Prof. Manier
91 explained that the proposal is still under review and has been forwarded to the CUNY Office of
92 the General Counsel for revision.

93

94 See Attachment IV

95

96 **6. Library, Technology, and Telecommunication**

97 Stephen Castellano discussed announcements from the Library, Division of Information
98 Technology, and Online Education.

99

100 See Attachment V

101

102 The next meeting is scheduled for Wednesday, March 1, 2017 at 11:00 a.m.

103

104 **7. Campus Life and Facilities**

105 There was no committee report.

106

107 **8. Budget and Long Range Planning**

108 There was no committee report.

109

110 **9. University Faculty Senate Report**

111 Prof. Anne Rice presented the report which referenced a University Faculty Senate (UFS)
112 discussion of President Trump’s executive order barring the entry of immigrants, from several
113 countries, into the U.S. Prof. Rice stated that Chancellor Milliken reported that the CUNY Board
114 of Trustees has taken a strong stance regarding the order and that CUNY, in an effort to support
115 affected individuals, will be providing university-wide confidential immigration services to
116 students. Resources, such as Creating Law Enforcement Accountability & Responsibility
117 (CLEAR), are available at the CUNY Law School. CLEAR’s work includes addressing legal
118 concerns of communities affected by related initiatives.

119

120 A study on upward mobility entitled, “Mobility Report Cards: The Role of Colleges in
121 Intergenerational Mobility,” was also discussed. Economist Dr. Raj Chetty of Stanford
122 University, through this study, indicated that CUNY propels six times the number of low income
123 students to middle-class status than that does the Ivy League.

124

125 Prof. Rice also mentioned Senior Vice Chancellor Matthew Sapienza’s reported on the budget;
126 there would be an increase of 6.6% for the upcoming fiscal year. Mr. Sapienza stressed that the
127 budget would fully fund cost increases for fringe benefits. The Excelsior College program was
128 also discussed. The idea is that budget funding for this program will provide middle class
129 students with “free” tuition.

130

131 **Old Business** – None.

132

133 **New Business** - Vice Provost Stefan Becker gave an update on issues concerning student
134 evaluations. The related document has been revised and will be discussed with the Executive
135 Committee of the General Faculty.

136

137 **ADJOURNMENT**

138 President Cruz adjourned the meeting at 4:57 p.m.

139

140 Respectfully submitted:

Proposed Amendment to Lehman College Senate Bylaws

Article II: Section 5 Vacancies and Replacements

When Senators-at-large, members of Senate committees, and departmental representatives to the Senate are elected, they shall be notified that if they go on leave during their term of office, they will be considered to have resigned from the Senate or the Senate committee unless they inform the chair of the Governance Committee that they will continue to attend meetings and fulfill their responsibilities as a Senator or committee member.

In the case of a departmental representative, the department shall elect a replacement to serve for the remainder of the term of office to which the original representative had been elected. In the case of a Senator-at-large or a Senate committee member, the vacancy in the Senate or on the committee shall be filled in the usual manner, with the new Senator or committee member serving for the remainder of the term of office to which the original Senator-at-large or committee member had been elected.

Proposed Amendment to Senate Governance Documents (New language is underlined)

I:C:2 Administration Representatives

The President, Vice-Presidents, and Full Deans, shall be members of the Senate with full voting and floor rights. Prior to the first Senate meeting of the academic year, the President shall appoint additional administration representatives for one year terms with full voting and floor rights so that the total number of administrators in the Senate, including ex -officio representatives, shall equal twelve. If the President, the Vice Presidents, and the Full Deans total more than twelve, the President shall designate prior to the first Senate meeting of the academic year which twelve of them shall serve as administration representatives for the year.

Senate Meeting – February 8, 2017
Graduate Studies Proposed Report

On behalf of the Graduate Studies Committee, I'd like to put forth a proposal from the following department:

Department of Music

- Course changes (title and description): MST 712

Does anyone have any questions and/or comments?

Also, I would like to notify the senate of one informational item – an experimental course (GEP 612) from the Department of Earth, Environmental, and Geospatial Sciences.

Our next meeting will on March 8, 2017, at 11 a.m. in Carman B33A.

3. **Rationale:**

This course will be utilized as an elective for the 40-credit Master's in Geographic Information Science (MS-GISc) and the 20-credit Advanced Certificate in GISc. It will provide students with an introduction to geographic quantitative and qualitative analysis techniques used in creating and interpreting historical and cultural spatial products.

4. **Learning Outcomes (By the end of the course students will be expected to):**

- Demonstrate a thorough understanding of the principles of spatial humanities and the role of GIS in historical and cultural research;
- Create comprehensive GIS datasets from historic maps and develop geovisualizations of historic spatial data;
- Conduct quantitative spatial analysis of historic and cultural data;
- Conduct qualitative and mixed-methods approaches using GISc;
- Georeference and digitize archival maps;
- Perform geographic information retrieval of historic documents on the Internet and in digital libraries;
- Present advanced quantitative and qualitative GIS analyses through substantive written reports, GISc lab assignments, and presentations.

4. **Rationale:** The change brings this course into better alignment with the way it has been taught in the recent past, and more accurately reflects the emphasis on pedagogical applications that suits the needs of our Master of Arts in Teaching program. Moreover, the added language addressing musical-creative skills better reflects the program's goal of creating digitally astute musicians, rather than focusing on digital tools themselves as an end goal.

3. **Rationale:** Knowledge of neuroscience, neurochemistry and pharmacology is relevant for students interested in the pharmaceutical industry, research, and the medical field. This course will provide a foundation in neuroscience for more advanced courses in the department. The course will introduce students to classical and current research and literature in the area of neuropharmacology.

4. **Learning Outcomes (By the end of the course students will be expected to):**

- Understand the neurochemical and molecular biology underlying neuronal communication (basic neuropharmacology, neurotransmitter systems, pharmacodynamics, route of drug administration, dose response and drug metabolism and elimination).
- Explain how drugs alter various aspects of behavior, including cognition and mood.
- Understand and distinguish between drug use/abuse/ and physical and psychological drug dependence.
- Understand the development of the nervous system and its relevance to psychiatric and neurodegenerative disease, and the effectiveness of drug therapies in treating psychiatric/neurodegenerative disorders.
- The neurobiological and neurochemical explanations proposed for psychiatric/neurodegenerative disorders.
- Understand the importance of behavioral neuroscience research in humans and laboratory animals to development of drug treatment, understanding neurological disorders and behavior.
- Develop quantitative literacy skills through understanding of dose-response curves, drug metabolism, and elimination.
- Develop critical thinking skills through reading and assessment of scientific literature.
- Develop written and oral communication skills through individual and group presentations.

CURRICULUM CHANGE

Name of Program and Degree Award: Disability Studies Minor
Effective Term: Fall 2017

1. **Type of Change:** *Change in Minor Requirements*

2. **From:** ~~Students will satisfy the College requirement of a minor field by taking four courses (12 credits), at least two of which must be at the 300-level or higher.~~

9 credits In Disability Studies, ~~chosen from the following list of courses:~~

DST 200	Introduction to Disability Studies
DST/SOC 333	Sociology of Disability
DST/PHI 336	Disability, Ethics and the Body
DST 365	Topics in Disability Studies (may be repeated)

3 credits An elective chosen from the following list of courses:

REC 321	Introduction to Therapeutic Recreation Service
REH 220	Introduction to Developmental Disabilities
REH 240	Psychiatric Rehabilitation
POL 318	The Politics of Health
SOC 302	Sociology of Health Care
SPV 230	Survey of Speech and Hearing Problems

3. **To:** The minor in Disability Studies consists of four courses (12-13 credits), at least two of which must be at the 300-level or higher.

9-10 credits In Disability Studies, any three DST courses

3 credits An elective chosen from the following list of courses:

REC 321	Introduction to Therapeutic Recreation Service
REH 220	Introduction to Developmental Disabilities
REH 240	Psychiatric Rehabilitation
POL 318	The Politics of Health
SOC <u>305</u>	Sociology of Health Care
SPV 230	Survey of Speech and Hearing Problems

4. Rationale (Explain how this change will impact learning outcomes of the department and Major/Program):

At the time that the Minor was introduced, the courses listed were the only DST courses offered. As the Disability Studies Minor adds new courses to the Minor, however, we would like students to be able to take any DST course toward the completion of the Minor. So long as we include a list of courses, that list will constrict which courses students can take toward the minor. By eliminating the list of courses and substituting the phrase “any three DST courses,” it makes clear to students that they can take any DST course and have it count toward the minor.

Since the Minor was introduced, SOC 302 has been re-numbered as SOC 305 by the Sociology Department. The change here reflects that change.

Also, because we are requesting that DST 220 be changed to a 4-credit course, and since DST 220 will now satisfy the DST Minor requirements, we must change the Minor requirements to reflect that the Minor is now a 12-13 credit minor, and that students have to take 9-10 credits of DST courses.

4. **Rationale:** DST 220 is a 4-hour active learning course and assigning students four credits for the course more accurately corresponds to the course requirements. Outside work will now be scaled to that of a 4 credit class instead of a 3 credit class. The course was previously listed as being 2 hours lecture and 2 hours lab, but that was incorrect as there is no separate lab.

3. **Rationale:**

This course is designed to offer students the opportunity for advanced, in-depth study on a topic in disability studies that is not covered by the existing courses. This would give qualified students an educational experience to work with a mentor in designing and carrying out a course of study that could be the foundation for future research as well as graduate study.

4. Rationale (Explain how this change will impact the learning outcomes of the department and Major/Program):

The current system allows students to register in DFN 348 before the availability of pre-requisite grades. Departmental permission prior to registration in DFN 348 will help the DPD director to monitor the progression of students in the ACEND-approved DPD option 1. Students with unacceptable performance in pre-requisites during the ongoing semester can switch to option 2 and still graduate with a degree in Dietetics, Foods and Nutrition.

3. **Rationale:** This course will prepare students to understand the importance of the

Dominican community in relation to the United States ethnic experience and the Latino community in particular. This course will also prepare students to analyze how the Dominican community has shaped the social, political, economic, and cultural development of the United States and particularly New York City.

4. Learning Outcomes (By the end of the course students will be expected to):

- a. To know that reading, thinking, and writing are mutually sustaining activities to help students discover the connections between the reality of immigrant communities and their own lives.
- b. To understand the importance of thinking critically as a tool to improve their analytical writing skills.
- c. To acquire the ability to be sharper and more perceptive readers.
- d. Understand the process of migration of Dominicans to the United States.
- e. Learn about the structural forces (inequality, segregation, changes in the US labor market) pushing Dominicans to settle in specific locations and take specific jobs.
- f. Know about the contributions of Dominican to the United States through their culture and levels of incorporation into US society.

LPR LEARNING GOALS

- a. Understand rise of Latino communities in the U.S., as well as the post-1900 experiences of Latin American-origin (i.e., Mexican, Hispanic Caribbean, and South and Central American) immigrants, migrants, and exiles settling in all regions of the country.
- b. Explain and analyze the formation and evolution of Latino communities in the United States from interdisciplinary perspectives.
- c. Critically analyze the major historical periods in Latino communities, with a special emphasis in the twentieth and twenty-first centuries.
- d. Examine the role of international and internal migration in Latin America and the Caribbean with special emphasis on the historical impact of Latino immigration in the U.S. and in the countries of Latin America and the Caribbean

LAC LEARNING GOALS

- a. Conduct original research on a current important issue facing Latin America and the Caribbean.
- b. Incorporate ideas from sources and use them appropriately
- c. Support evidence applying historically-based and culturally-informed arguments as indicated by the instructor in each discipline covered by the program: history; politics; anthropology; literature/the arts.

UNITED STATES DIVERSITY LEARNING GOALS

- a. Identify and apply the fundamental concepts and methods of a discipline or interdisciplinary field exploring the U.S. experience in its diversity, including, but not limited to, anthropology, communications, cultural studies, economics, history, political science, psychology, public affairs, sociology, and U.S. literature.

- b. Analyze and explain one or more major themes of U.S. history from more than one informed perspective.
- c. Evaluate how indigenous populations, slavery, or immigration have shaped the development of the United States.

3. **Rationale:** The study of Dominican-American literature allows students to explore the nuances of language considering how it shapes perception of reality, creates new

possibilities, and challenges perceptions in the context of the Dominican Diaspora, its migration, cultural clashes and predicaments adapting to the United States.

4. **Learning Outcomes (By the end of the course students will be expected to):**

- g. Students will be exposed to imaginative texts that spark their curiosity and foster a life-long love of reading.
- h. Students will become sharper and more perceptive readers of literature.
- i. Excite students' imagination, invite critical thinking, and encourage their analytical critical writing.
- j. Understand the current standing of Dominican-American literature.

LPR LEARNING GOALS

- a. Show an understanding of the artistic expressions of Puerto Rico and the Latino communities in the United States.
- b. Show understanding in at least one of the major artistic expressions of Puerto Rico and the Latino communities in the United States: music, film, visual art, performance art, and literature

3. **Rationale:** This course is part of a new series of courses focusing on music

technology which will update the department's course offerings and degree practicality. The department already has an upper-level elective for music majors in film scoring, but it has high demands in terms of musical literacy. This course is meant to offer non-music majors some insight into film music and potentially recruit new students to the music minor. Ideally we would like to see this course fulfil the Creative Expression requirement of General Education.

4. **Learning Outcomes (By the end of the course students will be expected to):**

- Understand how film composers create subtle moods to enhance visuals
- Understand some basic orchestration techniques used for effect in film
- Critically assess soundtracks and be able to defend artistic judgment
- Understand and use relevant terminology related to film scoring
- Develop an introductory understanding of the musical and technical skills needed in soundtrack production

3. **Rationale:** With the recent institutional interest in experiential learning, paired with

student demand for internship experiences, the department proposes this course to offer credit for students working in approved internship environments. To date, the department has relied on other program's course codes when a music major has found an internship. We would like to encourage more internships, and offer the academic support behind them with a course designed for music majors.

4. Learning Outcomes (By the end of the course students will be expected to):

The particular learning outcomes for an individual internship will vary depending on the employment context. Overall, the student will gain an understanding of the workings of a musical performing arts organization, educational institution, not-for-profit, or music industry enterprise, including, but not limited to:

- Demonstrate leadership in rehearsal and performance contexts appropriate to the instrument or ensemble.
- Evaluate and assess personal musical achievement; develop personal goals for future musical endeavors.
- Develop appropriate educational leadership skills, such as time and class management, rehearsal leadership, and repertoire development
- Understand the basic operational mechanisms of arts organization including promotion and marketing, client and public relations
- Understand the basic work flow of a commercial music enterprise, including asset and project management
