

Software Availability for Faculty and Staff

A variety of software packages are available to faculty and staff through CUNY licensing contracts with software providers. Eligibility, home use options and other conditions vary.

Information regarding these licenses may be found on the CUNY Website at <https://www.cuny.edu/about/administration/offices/cis/technology-services/>

A list of available software may be found at:

<https://www.cuny.edu/about/administration/offices/cis/technology-services/> McAfee Antivirus, not listed on this page, is also available for download at no cost from the CUNY eMALL. To download software for home use from the CUNY eMALL, log into the CUNY Portal at <http://www.cuny.edu> .

Software and vendor information may be found at:

<https://www.cuny.edu/about/administration/offices/cis/technology-services/>

Software not available through these agreements can often be obtained at reduced costs through New York State contracts and academic discount programs.

Faculty and staff may also obtain discounts on computers through the DELL University Program also reachable through the CUNY eMALL.
