

SC1, SC2, and SC3 Institutional Data

Limited to one page (counted as part of the research plan page limit: 25 pages for SC1 and 15 pages for SC2 and SC3) and should have the following information:

A. The total student enrollment at the institution and the number and percent of underrepresented minorities (e.g. Native American, African American, Hispanic American, natives of the U.S. Pacific Islands) in the total student population;

Total Student Enrollment	12,287
Number of underrepresented minorities in total student population	10,429
Percent of underrepresented minorities in total student population	85%

B. Number and percent of underrepresented minority students (undergraduate and graduate) enrolled in the sciences relevant to biomedical and behavioral research;

Number of underrepresented minority students enrolled in the sciences relevant to biomedical and behavioral research

Undergraduate	2348
Graduate	396

Percent of underrepresented minority students enrolled in the sciences relevant to biomedical and behavioral research

Undergraduate	23.8%
Graduate	16.4%

C. Number and percent of total and underrepresented minority faculty in the sciences relevant to biomedical and behavioral research and the total number of faculty and of underrepresented minority faculty from these departments participating in funded research.

Number of total faculty in the sciences relevant to biomedical and behavioral research	207
Number of underrepresented minority faculty in the sciences relevant to biomedical and behavioral research	80

Number of faculty from these departments participating in funded research	29
Number of underrepresented minority faculty from these departments participating in funded research	10
