GPA Calculator Tab

This functionality will calculate the minimum grades needed to reach a target cumulative GPA, student paths to achieving honors, avoiding probation, and/or satisfying personal academic aspirations. There are three different GPA calculators:

Graduation

What is DegreeWorks?
DegreeWorks is a computerized, web-based degree audit application and academic advising tool that has been designed to assist students in reviewing their progress toward graduation. This application takes the courses from the student transcript (which are arranged chronologically) and reorganizes them so students can see the completed and remaining degree requirements by categories.

Audit Tab
Displays students’ progress toward degree completion such as CUNY Skills Assessment, General Education requirements, Major/Minor requirements, GPA information, elective courses as well as insufficient courses.

How to Access DegreeWorks
DegreeWorks can now be accessed through the Self-Service menu In CUNYfirst.

STEP 1: Log in to CUNYfirst.
STEP 2: Click on Student Center.
STEP 3: Click on the DegreeWorks link located on the bottom right-hand side under “Advisement/Transcript.”

What-If Tab
Students can use this tab if they are thinking of changing their majors, minors, and/or concentrations and would like to know where they stand in the new program.

Look Ahead Tab
Allows users to see how a future course can be applied to a student’s graduation requirements.
