4. **Rationale (Explain how this change will impact the learning outcomes of the department and Major/Program):**

Changes are made so that GEH 320 has the same number of hours as its graduate version (GEP 620) and both can be listed as a combined section in Coursedog.

The description has been updated to better reflect what is covered in the course and for clarity. This course does not need prerequisites, so they have been removed.

5. **Date of departmental approval:** September 9, 2024.
