**Minutes of
The Lehman College Senate Meeting
Wednesday, December 11, 2013
Senate Meeting**

7 **Senators Present:** Ajdini, A.; Akan, A.; Amend, A.; Bayne, G.; Becker, S.; Bergmann, R.; Buckley,
8 M.; Carey, R.; Cheng, H.; Choudhary, A.; Cintrón, N.; Clark, V.; Conner, P.; Davis, S.; Deas, M.;
9 Delgado Jr., M.; Ewul, E.; Farrell, R.; Fayne, H.; Fera, J.; Fernández, R.; Gerry, C.; Gil, M.; Gross,
10 C.; Harcourt-Smith, W.; Holloway, J.; Huynh, M.; Jacobson, B.; Jafari, M.; Jervis, J.; Larimer, A.;
11 Machado, E.; Magdaleno, J.; Marianetti, M.; Markens, S.; Martín, O.; Maybee, J.; Mibenge, C.;
12 Morales, I.; Morrobel-Sosa, A.; Nadeem, S.; O'Connor, N.; O'Hanlon, T.; Okipi, G.; Pérez, M.;
13 Persaud, L.; Philipp, M.; Prasannavallabha, C.; Prince, P.; Prohaska, V.; Rice, A.; Rodriguez, C.;
14 Sailor, K.; Schlesinger, K.; Shetty, N.; Stuckart, D.; Tananbaum, D.; Tavarez, D.; Townsend, J.;
15 Valentine, R.; Vargas, J.; Vizcaino, J.; Waring, E.; Zucchetto, V.

16
17 **Senators Absent:** Abdukader, D.; Angeli, A.; Aragon, D.; Arredondo, G.; Bamshad, M.; Beltran, A.;
18 Brenst, A.; Calvet, L.; Coke, T.; Dellapina, M.; DiRaimo, S.; Esteves, C.; Estevez, Y.; Georges, A.;
19 Hurley, D.; Jebin, R.; Jordan, S.; Kabat, D.; Maldonado, D.; Matthews, E.; Mazo, S.; Mazza, C.;
20 Morren, C.; Pérez, R.; Pettipiece, D.; Quinones, J.; Rachlin, J.; Reyes, B.; Ricourt, M.; Rivera-
21 McCutchen, R.; Saccomano, S.; Sanchez, P.; Silverman, H.; Spence, N.; Trinidad, V.; Troy, R.;
22 Washington, E.; Williams-Gray, B.; Williams-Wallen, D.

23
24
25
26 The meeting was called to order by Prof. Duane Tananbaum at 3:40 p.m. at the request of
27 President Ricardo R. Fernández who was late due to his meeting with César Duarte Jáquez, Gov.
28 of Chihuahua, Mexico.

29
30 **Announcements and Communications--**

31 a. The College Senate Minutes of November 13, 2013 were amended to list Prof. Duane
32 Tananbaum as present, not absent from the meeting. With that amendment, the Minutes were
33 approved.

34
35 **b. Student Legislative Assembly—**

36 Ms. Madelyn Gil noted that there is no formal report, however, the Student Legislative Assembly
37 will be advocating for the improvement of academic advisement. Ms. Gil wished everyone happy
38 holidays.

REPORTS OF STANDING COMMITTEES-

1. Graduate Studies-

Prof. Janet DeSimone presented proposals from the following departments: Earth, Environmental and Geospatial Sciences; Health Sciences; Early Childhood and Childhood Education; and Middle and High School Education. The proposals were approved by voice vote with one abstention.

The Graduate Studies Committee proposed an amendment to the Senate Bylaws and it was presented for a voice vote of the Senate. The amendment was unanimously approved by voice vote.

See Attachment I.

The next committee meeting will be February 5th at 11:00a.m. in CA 338.

2. Governance Committee-

Prof. Duane Tananbaum presented the report.

The Governance Committee last met on Monday, November 25th. During the Committee meeting, the Committee discussed the issue of the minor requirement. The Committee decided against bringing a formal resolution to the Senate. Instead, the Governance Committee has decided to send a letter to Interim Chancellor Kelly to convey its position on the minor requirement. See Attachment II.

Prof. Tananbaum also noted that at the meeting of Faculty Governance Leaders that he attended on Friday, November 22, 2013, Interim Chancellor Kelly expressed more “reasonableness” on the current interpretation of Pathways than former Chancellor Goldstein. Interim Chancellor Kelly

69 noted that he would be listening and consulting with various groups, to obtain feedback about
70 Pathways.

71 The next Governance Committee meeting will be Monday, January 27th at 3:30p.m. in CA 201.

72 **3. Committee on Admissions, Evaluations and Academic Standards--**

73 Prof. Anne Rice presented the report.

74
75 The January candidates for graduation for both the undergraduate and graduate programs were
76 presented

77
78 The list of graduation candidates for both the undergraduate and graduate programs, subject to
79 approval by the Registrar and subject to meeting the requirements, was approved by unanimous
80 voice vote. See Attachment III.

81
82 The next Committee meeting has yet to be scheduled, but should be held during the first week of
83 February 2014.

84 85 **4. Undergraduate Curriculum--**

86 Prof. Barbara Jacobson presented proposals from the following units:

87
88 Center for Human Rights and Peace Studies (Attachment IV);
89 Environmental, Geographic, and Geological Sciences (Attachment V);
90 Health Sciences (Attachment VI).

91
92 The proposals were all approved by unanimous voice vote.

93
94 Prof. Jacobson also presented two (2) experimental courses as informational items from the
95 following departments:
96 Biological Sciences (Attachment VII);
97 Undergraduate Curriculum Committee – LEH 4100, Experimental Course (Attachment VIII).

98 The next meeting is February 5th at 1:00 p.m. in CA 263.

99

100 President Fernández arrived and presided over the meeting from this point onward.

101

102 **5. Academic Freedom--**

103 Prof. Robert Valentine presented the report.

104 The Committee met on December 2nd and the seventeen (17) question Academic Freedom Faculty
105 Survey will be launched soon. Prof. Mario González-Corzo has uploaded the survey to the survey
106 engine. It should reach faulty email accounts sometime over the holidays.

107

108 Prof. Valentine noted that Prof. Tananbaum asked the Committee to select two members to serve
109 on Senate ad hoc committees: Senate Committee for Academic Restructuring and the Senate
110 Committee for Student Evaluation of Teaching and reported the following appointments: Prof.
111 Carl Mazza was elected to serve on the Senate Committee for Academic Restructuring and Prof.
112 Robert Valentine was elected to serve on the Senate Committee for Student Evaluation of
113 Teaching.

114

115 The next Committee meeting is Wednesday, January 29th at 3:30p.m. in CA 201.

116

117 **6. Library, Technology, and Telecommunication—**

118 Prof. Stefanie Havelka presented the report.

119 Prof. Havelka made four announcements (See Attachment IX):

120 1. An upgrade is planned for Blackboard, which will begin on Thursday, December 26 and is
121 expected to be completed by the end of the day on December 27th. Although this is the
122 time grades are due, it is the least disruptive time to complete this process. The system
123 will not be available during this time, but will be available again on December 28th. The
124 upgrade will introduce a variety of new features. All questions should be directed to the
125 attention of Steve Castellano at (718) 960-8658.

126

127 2. Last Thursday during the CUNY IT conference, Mr. Joseph Middleton, Director of
128 Information Technology was honored with a CUNY Excellence in Technology Award.

129

130 3. The Library is pleased that students have been availing themselves of the sixteen (16)
131 extended hours – particularly in the evening.

132

133 4. The Library Newsletter *Biblio-Tech* is available now at
134 <http://www.lehman.edu/library/newsletter.php>.
135

136 **7. Campus Life and Facilities —**

137 No report.

138 There is a request from the floor for the Committee to look into the reports of temperature issues in
139 the new Science building.

140
141 The next meeting is not scheduled yet, but the meetings are usually scheduled on the second
142 Wednesday of the month.

143

144 **8. Budget and Long Range Planning —**

145 No report.

146

147 The next meeting is Monday, February 10th at 3:30 p.m. in S-336.

148

149 **9. University Faculty Senate Report—**

150 Prof. Philipp presented the report (See Attachment X).

151

152 The next meeting will be scheduled for the first week in February 2014.

153

154 Old Business----None.

155

156 New Business----

157

158 Dean Stefan Becker presented the following proposal to create a Center for Theoretical and
159 Computational Sciences.

160

161

162

163

164 **Lehman College Center for Theoretical and Computational Sciences**

165

166 **“RESOLVED**, that the Center for Theoretical and Computational Sciences be established at
167 Lehman College in accordance with the Policy Guidelines on Research Centers and Institutes set
168 forth by the Board of Trustees.”
169

170 He asked that the two meeting rule be waived so the proposal could be voted on during the
171 College Senate meeting, in light of the need to raise funds for the Center and due to the schedule
172 for approval by the CUNY Board of Trustees. The objective is to have the Center operational in
173 fall 2014 and any delay in approving the proposal would impact the start date.
174
175

176 Prof. Tananbaum raised an objection to the Senate considering and voting upon the proposal
177 because the proposal has not been vetted by the Governance Committee. The matter was
178 discussed by the body and in the end, referred to the Governance Committee. Prof. Tananbaum,
179 as the Chair of the Governance Committee, agreed to have the proposal reviewed on an expedited
180 schedule and then brought back to the Senate for a vote.
181
182
183
184

185 **ADJOURNMENT**

186
187 President Fernández adjourned the meeting at 5:06 p.m.
188

189 Respectfully submitted:

190 
191
192 Mary T. Rogan
193
194

Senate Meeting – December 11, 2013
Graduate Studies *Anticipated* Report (as of 12/3/2013)

On behalf of the Grad Studies Committee, I'd like to put forth items from the following departments:

Environmental, Geographic and Geological Sciences

- New courses: GEO 528 and GEP 699

Health Sciences

- New courses: PHE 716, 725 and 730
- Change in degree requirements: MPH program

Early Childhood and Childhood Education

- Multiple course changes (prerequisites and corequisites)
- Change in degree/program requirements (new NYSED certification testing requirements): MEd Program in Early Childhood Education (B-Grade 2) and Bilingual Extension (B-Grade 2)
- Pass/no pass grading basis for student teaching seminars

Middle and High School Education

- Multiple changes in degree/program requirements (new NYSED certification testing requirements)
- Pass/no pass grading basis for student teaching seminars

Does anyone have any questions and/or comments?

All those in favor of approving these proposals, please say I. Anyone opposed. Any abstentions?

Also, the committee discussed the functions of the graduate studies committee and the need for an addition to the functions of the committee under the Senate Bylaws. We voted to amend the Senate Bylaws and add a fifth function, which the Governance Committee also reviewed and approved.

- v. Hears appeals from individual students, taking care to safeguard the confidentiality of individual cases.

Our next meeting will be on February 5, 2014, at 11 a.m. in Carman B33A .

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

DEPARTMENT OF EARLY CHILDHOOD AND CHILDHOOD EDUCATION

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program code: 25780

1. **Type of Change:** Admission and Degree Requirements

2. **From:**

Early Childhood Education Entrance Requirements

- A bachelor's degree or equivalent from an accredited college or university with a Grade Point Average of 3.0 for all undergraduate and graduate work completed prior to acceptance.
- Two letters of recommendation.
- Submit scores on New York State's **[Liberal Arts and Sciences Test (LAST)]** for advisement purposes if initial certification is not successfully completed.
- An interview might be scheduled upon faculty request. **[(Requirements and procedures are available in the Department office, located in Room B-32 of Carman Hall.)]**

Early Childhood Education Degree Requirements

To qualify for the M.S.Ed. degree in Early Childhood Education (Birth-Grade 2), students must fulfill the following requirements: **[(1) Submit scores on the ATS-W and CST.]** (2) Complete 42 credits of prescribed coursework. (3) Submit professional portfolio. (4) **[Satisfactory research project submitted for publication.]** (5) Apply for initial or professional certification.

To qualify for a M.S. Ed. in Early Childhood Education/Integration of Bilingual Extension (Birth – Grade 2), students must fulfill the following requirements: (1) **[Submit scores on the ATS-W and CST.]** (2) 48 credits of prescribed course work. (3) Submit professional portfolio.(4) **[Submit satisfactory research project for publication]**. (5) Apply for initial or professional certification by completing the requirements for a Bilingual Extension: EDC 738, EDC 739, EDC 727, and *SPE 703. (6) Pass Bilingual Education Assessment (BEA).

3. To:*Early Childhood Education Entrance Requirements*

- A bachelor's degree or equivalent from an accredited college or university with a Grade Point Average of 3.0 for all undergraduate and graduate work completed prior to acceptance.
- Two letters of recommendation.
- An essay outlining career goals (500 words).
- Submit scores on New York State's Academic Literacy Skills Test (ALST) for advisement purposes if initial certification is not successfully completed.
- An interview might be scheduled upon faculty request.
- Students interested in the Bilingual Extension certificate, please submit an essay in Spanish outlining careers goals.

Early Childhood Education Degree Requirements

To qualify for the M.S.Ed. degree in Early Childhood Education (Birth-Grade 2), students must fulfill the following requirements:

- (1) Submit scores on the edTPA, Educating ALL Students Test (EAS), Academic Literacy Skills Test (ALST), and Revised Content Specialty Tests (CST)
- (2) Complete 39-42 credits of prescribed coursework.
- (3) Submit professional portfolio.
- (4) Complete and submit a satisfactory culminating project.
- (5) Apply for initial or professional certification.

To qualify for a M.S. Ed. in Early Childhood Education/Integration of Bilingual Extension (Birth – Grade 2), students must fulfill the following requirements:

- (1) Submit scores on the EdTPA, Educating ALL Students Test (EAS), Academic Literacy Skills Test (ALST) and. Revised Content Specialty Tests (CST)
- (2) 45-48 credits of prescribed course work.
- (3) Submit professional portfolio.
- (4) Complete and submit a satisfactory culminating project.
- (5) Apply for initial or professional certification by completing the requirements for a Bilingual Extension: EDC 738, EDC 739, EDC 727, and *SPE 703 or EBS 701
- (6) Pass Bilingual Education Assessment (BEA).

4. Rationale:

- Applicants have always been required to write a 500 word application essay outlining career goals. It is part of the admissions requirements at the Graduate Admissions office. This requirement needs to be added to the bulletin.
- The changes to the certification exams will accommodate the impact by the new State mandates in teacher certification examination requirements.
- Bilingual applicants need to demonstrate biliteracy skills. For this reason, we are adding a requirement that they also provide a sample essay of their writing in Spanish.
- Given the change of course description in EDC 756 where students now complete a culminating project, this requirement in the entrance and degree requirements description must be consistent with the change.
- The changes from 42 to 39-42 credits in the Early Childhood Education Degree Requirements and from 48 – 51 credits to 45-48 credits in the degree requirements of the Early Childhood Education/Integration of Bilingual Extension will be consistent with the last curriculum changes we made, which, although approved prior, were never entered into the graduate bulletin.
- Students can take either SPE 703 or EBS 701 as part of their bilingual requirements.

5. **Date of departmental approval: November 6, 2013**

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

DEPARTMENT OF EARLY CHILDHOOD AND CHILDHOOD EDUCATION

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

1. **Type of Change:** Degree Requirements

2. **From:**

Early Childhood Education Birth-Grade 2 (39-[45] credits)

Overview

Students in both Early Childhood Education programs must complete courses in three competency areas, including student teaching. To progress from one competency area to the next, candidates must meet continuation requirements as listed below.

Early Childhood Education Birth-Grade 2 (39-[45] credits)

39 credits for students with initial or provisional certification in Pre-K-Grade 6 or Childhood Education.

[45] credits for students without prior teacher certification.

COMPETENCY AREA I: Foundations in Early Childhood Development and Education (15 credits): EDC 721 (3), EDC 722 (3), EDS 702 (3), EDC 734 (3) or elective, EDC 735 (3).

Fulfill requirements for continuation: (1) Complete first 6 credits with a 3.0 G.P.A. (2) Submit academic portfolio for each course of the first 6-12 credits.

COMPETENCY AREA II: Professional Coursework in Early Childhood Development and Education (18 credits): EDC 713 (3), EDC 714 (3), EDC 715 (3), EDC 716 (3), EDC 717 (3), EDC 718 (3).

Fulfill requirements for entry into student teaching: (1) Successful application to the Student Teaching Coordinator. (2) Complete at least 12 credits in Competency Area II.

Student Teaching and Seminar (6 credits): EDC 795 (3) and EDC 790 (3).

Student Teaching Internship and Seminar (6 credits): EDC 784 (3), EDC 795 (3), EDC 745 (1), EDC 746 (1), EDC 748 (2), EDC 749 (2) OR EDC 747 (2), EDC 748 (2), EDC 749 (2) OR EDC 758 (3), EDC 759 (3).

Fulfill requirements for continuation: (1) Successful completion of student teaching or internship. (2) Submit an academic portfolio for each course of the first 36-39 credits, with evidence of achieved outcomes. (3) Apply for Initial or Professional Certification.

COMPETENCY AREA III: Professional Practice in Early Childhood Education (3-6 credits): EDC 756 (3), *EDC 757 (3).

3. To:

Early Childhood Education Birth-Grade 2 (39-42 credits)

Overview

Students in both Early Childhood Education programs must complete courses in three competency areas, including student teaching. To progress from one competency area to the next, candidates must meet continuation requirements as listed below.

Early Childhood Education Birth-Grade 2 (39-42 credits)

39 credits for students with initial or provisional certification in Pre-K-Grade 6 or Childhood Education.

42 credits for students without prior teacher certification.

COMPETENCY AREA I: Foundations in Early Childhood Development and Education (15 credits): EDC 721 (3), EDC 722 (3), EDS 702 (3), EDC 734 (3) or elective, and EDC 735 (3).

Fulfill requirements for continuation: (1) Complete first 6 credits with a 3.0 G.P.A. (2) Submit academic portfolio for each course of the first 6-12 credits.

COMPETENCY AREA II: Professional Coursework in Early Childhood Development and Education (18 credits): EDC 713 (3), EDC 714 (3), EDC 715

(3), EDC 716 (3), EDC 717 (3), EDC 718 (3).

Fulfill requirements for entry into student teaching: (1) Successful application to the Student Teaching Coordinator. (2) Complete at least 12 credits in Competency Area II.

Student Teaching and Seminar (6 credits): EDC 795 (3) and EDC 790 (3).

Student Teaching Internship and Seminar (6 credits): EDC 784 (3), EDC 795 (3), EDC 745 (1), EDC 746 (1), EDC 748 (2), EDC 749 (2) OR EDC 747 (2), EDC 748 (2), EDC 749 (2) OR EDC 758 (3), EDC 759 (3).

Fulfill requirements for continuation: (1) Successful completion of student teaching or internship. (2) Submit an academic portfolio for each course of the first 36-39 credits, with evidence of achieved outcomes. (3) Apply for Initial or Professional Certification.

Student Teaching Internship and Seminar: EDC 795 (3), EDC 784 (3), EDC 745 (1), EDC 746 (1), EDC 748 (2), EDC 749 (2) OR EDC 747 (2), EDC 748 (2), EDC 749 (2) OR EDC 758 (3), EDC 759 (3).

Fulfill requirements for continuation: (1) Successfully complete student teaching. (2) Submit an academic portfolio for each course of the first 45 credits, with evidence of achieved outcomes. (3) Apply for Initial or Professional Certification.

COMPETENCY AREA III: Professional Practice in Early Childhood Education (3-6 credits): EDC 756 (3), *EDC 757 (3).

4. Rationale:

- The change from the 45-51 to 45-48 degree requirements will be consistent with the last curriculum change we made.
- Students can take either SPE 703 or EBS 701 to satisfy requirements for the Bilingual extension.

5. Date of departmental approval: November 6, 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK
DEPARTMENT OF EARLY CHILDHOOD AND CHILDHOOD EDUCATION**

CURRICULUM CHANGE
(changes anticipated starting for May 2014 graduates)

Program code: 25780

1. **Type of Change:** Course corequisites

2. **From:**

EDC 713: Literacy Development in Early Childhood Settings, Birth to Grade 2. 3 hours, 3 credits.

Exploration of ways in which infants, toddlers, young children, young children who are learning English as a second language, and young children with special needs, develop language and literacy in family, early care, and school settings. Approaches to literacy development, assessment, and instruction, including use of media and technology within an integrated curriculum that meets National and State standards, and the needs of children with disabilities. Visits to early childhood settings with diverse populations, action research, and the development of an academic portfolio. Ten hours of fieldwork required. PREREQ: EDC 721, EDC 722. [COREQ: EDC 714.] No student can receive credit for both EDE 713 and EDC 713.

3. **To:**

EDC 713: Literacy Development in Early Childhood Settings, Birth to Grade 2. 3 hours, 3 credits.

Exploration of ways in which infants, toddlers, young children, young children who are learning English as a second language, and young children with special needs, develop language and literacy in family, early care, and school settings. Approaches to literacy development, assessment, and instruction, including use of media and technology within an integrated curriculum that meets National and State standards, and the needs of children with disabilities. Visits to early childhood settings with diverse populations, action research, and the development of an academic portfolio. Ten hours of fieldwork required. PREREQ: EDC 721, EDC 722. No student can receive credit for both EDE 713 and EDC 713.

4. **Rationale:**

The curriculum was reviewed and there was a consensus that course content does not need to be studied at the same time. The change will allow students to take one course and not the corequisite.

DEPARTMENT OF EARLY CHILDHOOD AND CHILDHOOD EDUCATION**

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program code: 25780

1. **Type of Change:** Course prerequisites

2. **From:**

EDC/EDE 727: Teaching English as a Second Language (Pre-K to Grade 6).

4 hours, 3 credits.

Methods and materials for teaching children whose native language is not English and children with special needs. Focus on how to teach content with an emphasis on English language arts, using English as a Second Language methodologies. Attention on addressing the influence of language, cultural and community orientation, and prior schooling experiences on learning in a second language including children with disabilities. This course requires 15 hours of fieldwork with children in ESL classrooms. PREREQ: [Competency Area I and Step 2; EDC 738/EDE 738, *EBS 701, and one of the following: EDC 739/EDE 739 or EDC/EDE 733.] (Note: Required course for Bilingual Extension.)

3. **To:**

EDC/EDE 727: Teaching English as a Second Language (Pre-K to Grade 6).

4 hours, 3 credits.

Methods and materials for teaching children whose native language is not English and children with special needs. Focus on how to teach content with an emphasis on English language arts, using English as a Second Language methodologies. Attention on addressing the influence of language, cultural and community orientation, and prior schooling experiences on learning in a second language including children with disabilities. This course requires 15 hours of fieldwork with children in ESL classrooms. PREREQ: EDC 721, EDC 722 and SPE 703 or EBS 701 (Note: Required course for Bilingual Extension.)

3. **Rationale:**

Change is needed because EDC/ EDE 727 is a methods course; as such, it needs EDC 721 and EDC 722 as pre-requisites, just like the other methods courses.

The foundational courses for the Bilingual Extension are EBS 701 or SPE 703 and needs to be taken before EDC 727.

4. **Date of departmental approval:** November 6, 2013

DEPARTMENT OF EARLY CHILDHOOD AND CHILDHOOD EDUCATION

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program code: 25780

1. **Type of Change:** Course description and corequisites

2. **From:**

EDC 757: Ethics and Professionalism in Early Childhood Teaching. 3 hours, 3 credits.

Study of the early childhood teaching profession, its multiple historical, philosophical, and social foundations. Analysis of teaching practices through the use of self-assessment as a form of evaluation and professional portfolio development. Examination of the purpose and meaning of teaching and the contributions made to the profession through analysis of the students' own teaching experiences. PREREQ: Competency Area II and Step 4. [COREQ: EDC 756.] No student can receive credit for both EDC 757 and EDE 757.

3. **To:**

EDC 757: Ethics and Professionalism in Early Childhood Teaching. 3 hours, 3 credits.

Study of the early childhood teaching profession, its multiple historical, philosophical, and social foundations. Analysis of teaching practices through the use of self-assessment as a form of evaluation and professional portfolio development. Examination of the purpose and meaning of teaching and the contributions made to the profession through analysis of the students' own teaching experiences. PREREQ: Competency Area II and Step 4. *For certified students only. No student can receive credit for both EDC 757 and EDE 757.

4. **Rationale:**

The curriculum was reviewed and there was a consensus that course content does not need to be studied at the same time. The change will allow students to take one course and not the corequisite. This change (*for certified students only) was requested in a previous curriculum change proposal, but the change has not been made in the electronic version of the graduate bulletin yet. EDC 795 covers this content for uncertified students as stated in the previous curriculum change.

5. **Date of departmental approval: November 6, 2013**

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK
DEPARTMENT OF EARLY CHILDHOOD AND CHILDHOOD EDUCATION**

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program code: 25780

1. **Type of Change:** Course description and grading basis

2. **From:**

EDC 795: Student Teaching/Internship Seminar. 3 hours, 3 credits.

A weekly forum for students to analyze teaching practices through the use of a variety of assessments as a form of evaluation. Development of the ability to problem solve, to consider flexible and varied interactions with diverse children, and to reflect in order to support students development as competent, qualified, caring, and ethical professionals. Examination of the purpose and meaning of teaching through analysis and discussion of students own teaching experiences, such as concerns, fears, and views within a safe, supportive environment, as well as others' contributions made to the profession. Development of a professional portfolio.

PREREQ: Successful completion of foundation courses and 12 credits of methods courses. COREQ: EDC 756, EDC 790, EDC 781 or EDC 784.

3. **To:**

EDC 795: Student Teaching/Internship Seminar. 3 hours, 3 credits.

A weekly forum for students to analyze teaching practices through the use of a variety of assessments as a form of evaluation. Development of the ability to problem solve, to consider flexible and varied interactions with diverse children, and to reflect in order to support students development as competent, qualified, caring, and ethical professionals. Examination of the purpose and meaning of teaching through analysis and discussion of students own teaching experiences, such as concerns, fears, and views within a safe, supportive environment, as well as others' contributions made to the profession. Development of a professional portfolio.

Required state certification student teaching assessments supported through the course. This is a credit-bearing course that will use a Pass/No Pass grading basis.

PREREQ: Successful completion of foundation courses and 12 credits of methods courses. COREQ: EDC 756, EDC 790, EDC 781 or EDC 784.

4. **Rationale:**

The grading basis addresses the New York State-required teaching certification assessments. The new assessment, the edTPA, will be graded by New York State and is based on a pass/no pass assessment model. In order to be consistent with the assessment model required by New York State, this proposal requests changing EDC 756 to a pass/no pass assessment model as well.

Upon approval of this request the Grading Basis for this course will change from "Graded" to "P/NP". The grading basis for "graded" allocates letter grades, A, A-, B+, etc., to be assigned to the course and is factored into the GPA. Whereas, the "P/NP" grading basis allocates only a pass and a no pass option and is not factored into the GPA. For example, if a student receives an NP grade, they will not receive credit for the course and the NP grade will not be punitive (not factored into GPA).

5. Date of departmental approval: November 6, 2013

**LEHMAN COLLEGE
OF THE

5. **Date of Departmental Approval:** November 6, 2013

LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK
DEPARTMENT OF ENVIRONMENTAL, GEOGRAPHIC
AND GEOLOGICAL SCIENCES

(anticipated date of implementation - fall 2014)

CURRICULUM CHANGE

1. **Type of Change:** New Course

2. **Course Description:** **GEO 528: Weather and Climate.** *5 hours (3 lecture, 2 lab), 4 credits.* Study of atmospheric phenomena and weather instruments and a general introduction to meteorological processes. Description and explanatory analysis of the climates of the Earth.

3. **Rationale:** GEP 501 Weather and Climate currently exists within the Physical Geography course listing. Weather and climate are important parts of the conceptual framework set forth by the New York State Education Department for Teachers of Earth Science and within the Physical Science: Earth Science Core Curriculum for middle and high school. A course on weather and climate would therefore be an important part of Earth science content core recommended for students enrolled in the MS in the Department of Middle and High School Education. New York State Education Department does not grant credit towards Earth Science certification for courses in geography in candidate transcript review. For this reason cross, listing GEP 501 with the new GEO 528 is desirable

4. **Learning Objectives:**

Students successfully completing the course will:

- Gain a broad understanding of atmospheric processes within the context of natural sciences.
- Gain an appreciation for the complexity and interconnectedness of natural phenomena.
- Get to know basic concepts and processes of weather and climate.
- Get to know the elements of weather and climate such as temperature, precipitation and humidity, and air pressure and winds.
- Training in the use of weather instruments to measure these phenomena.
- Become familiar with the use of quantitative data and weather charts for basic atmospheric modeling and weather forecast.
- Become familiar with the application of scientific methods and gain expertise in communicating scientific concepts and results.

5. **Date of Departmental Approval:** **October 29, 2013**

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

**DEPARTMENT OF
EARTH, ENVIRONMENTAL, and GEOSPATIAL SCIENCES**
(anticipated date of implementation - fall 2014)

CURRICULUM CHANGE

1. **Type of change:** New Course

2. **Course Description:**

GEP 699: Studies in Geographic Sciences 2-4 credits, 2-4 hours. (May be repeated for up to 9 credits.) Advanced, in-depth study and research of a specialized topic in the geographic sciences and related cognate fields that is not covered by existing courses. PREREQ: Faculty permission.

3. **Rationale:**

This course will serve as an elective in the graduate GISc program (MS-GISc), and support the other EEGS Department programs. The existence of a special topic study course will help students pursue their individual research interests in terms of content, data collection, data preparation, or analysis. This course will support the opportunity for students in the MS-GISc Program to obtain course credits for study in topics pertinent to their interests, and as appropriate to meet the objectives of their planned concentration in the program (Environmental and Health Spatial Sciences; Urban Sustainability; GISc Technology)

4. **Learning Objectives:**

Learning Objectives will vary by the topic of the independent study but could include:

- Readings and critical analysis of scholarly articles
- Analysis of a specific geographic phenomenon or phenomena
- Learning and implementation of spatio-analytic techniques not covered in other courses

5. **Date of Departmental Approval:** October 25, 2013

(anticipated date of implementation - fall 2014)

CURRICULUM CHANGE

Program Code: 30600

Hegis Code: 1214

1. **Type of Change: New Course**

2. **PHE 730 Critical Reading and Writing in Public Health 2 hours, 2 credits.**
Development of strategies to read public health peer-reviewed literature efficiently and to write scientifically for the profession.

3. **Rationale:** This course has been offered previously as a special topics course (PHE 680) and has been a success with students. Many of the Master of Public Health (MPH) students have entered the program with no experience with reading peer-reviewed literature and/or scientific writing. Lastly, PHE 730 can be used as an elective in the MPH Program.

4. **Learning Objectives:**

- Understand the differences between genres of writing.
- Practice analyzing texts using a matrix of features that help identify the nature and credibility of source material.
- Develop an appropriate approach to reading peer-reviewed literature by identifying key points and using close reading techniques.
- Develop facility with two essential tools of source-based writing: paraphrasing and summarization.

CURRICULUM CHANGE

Program Code: 30600

Hegis Code: 1214

1. Type of Change: New Course

2. PHE 716 Qualitative Methods in Public Health 3 hours, 3 credits.

Designing public health research from a qualitative perspective, including data collection methods and analysis. PREREQ: Permission of program faculty.

3. Rationale: This course has been offered previously as a special topics course (PHE 680) and has been a success with students. Currently, the Master of Public Health Program only offers a quantitative research methods course. This course would provide a different perspective on research methods. Lastly, PHE 716 can be used as an elective in the MPH Program.

4. Learning Objectives:

- Develop basic competency in using qualitative data collection methods and analytical techniques to investigate problems and contexts relevant to public health.
- Understand the role and potential uses of qualitative methods in public health research and in carrying out the core functions of public health.
- Utilize social science concepts and theories to anchor and enrich qualitative data collection and analysis processes.
- Describe the key ethical and social justice advantages and tensions associated with qualitative research.
- Prepare written and oral reports using appropriate professional formats.
- Articulate the value of qualitative research and its findings to diverse audiences.

CURRICULUM CHANGE

Program Code: 30600

Hegis Code: 1214

1. Type of Change: New Course

2. PHE 725 Maternal, Child, Reproductive and Sexual Health: Socio-historical Contexts 3 hours, 3 credits. This course explores maternal and child health issues both domestically and internationally.

3. Rationale: This course is one of the three content courses required for the optional concentration in Maternal Child Reproductive and Sexual Health (MCRSH) in the Master of Public Health Program for the CUNY School of Public Health (SPH). It is available to all students in the SPH consortium, which includes Lehman, Hunter, Brooklyn, and the Graduate Center. This course will be offered at the Hunter and Brooklyn campus alternating semesters. It is an introduction and critical overview of public health issues, approaches and concerns in the area of Maternal and Child Health. A Lehman course number is required to facilitate registration and to simplify transfer of credits.

4. Learning Objectives:

- Discuss the major history and current practices of Public Health in regard to Maternal, Child, and Sexual Health, and apply a reproductive justice framework to these issues.
- Apply critical theoretical approaches to the study of both historical and contemporary issues in maternal and child health.
- Critically evaluate normative claims related to ethical dilemmas in Public Health as it relates to motherhood and issues of sexuality.

CURRICULUM CHANGE

Program Code: 30600

Hegis Code: 1214

1. Type of Change: Change in Degree Requirements

2. From:

M.P.H. Program in Public Health

The Lehman M.P.H. Program offers two specializations: one in Community-Based Public Health and Health Equity and a second in Public Health Geographic Information Science.

- The Community-Based Public Health and Health Equity track focuses on health equity and social justice with emphasis on program planning and evaluation, and research methods.
- The Public Health Geographic Information Science track offers courses in spatial analysis, computer-assisted cartography, geostatistics, and exploration and interpretation of geographic data as applied to public health, environmental justice and health equity.
- In addition, the MPH Program offers an optional concentration in Maternal Child Reproductive Sexual Health (MCRSH). The purpose of this concentration is to guide students toward an integrated view of the contribution of maternal, child, reproductive, and sexual health to population health through a wide array of courses. This concentration can be taken in conjunction with either specialization.

Internships and culminating experiences prepare students for careers as practitioners and researchers, or for pursuing doctoral degrees.

Course and Credit Requirements are as follows:

Core Courses (15 credits)

PHE 600: Biostatistics in Public Health (3 credits)

PHE 606: Public Health Epidemiology (3 credits)

PHE 701: Public Health Policy and Management (3 credits)

PHE 702: Environmental Health (3 credits)

PHE 703: Social and Behavioral Dimensions of Health (3 credits)

Specialization: Community-based Public Health and Health Equity (15 credits)

PHE 700: History and Philosophy of Public Health (3 credits)

PHE 709: Health Equity and Social Justice (3 credits)

PHE 710: Applications of Research Methods in Public Health (3 credits)

PHE 715: Community-based Public Health Program Planning and Eval. (3credits)

PHE 790: Public Health Capstone Seminar (3 credits)

Specialization: Public Health Geographic Information Science (15 credits)

PHE 704: Environmental Health GIScLab (co-requisite with PHE 702) (1 credit, 1 hour)

PHE 705: Principles of GISc for Public Health (3 credits, 4 hours)

PHE 706: Spatial Analysis and Environmental Modeling for Public Health (4 credits, 6 hours)

PHE 717: The Geography of Urban Health (3 credits, 4 hours)

PHE 791: Workshop in GISc Research for Public Health (4 credits, 4 hours)

[Optional Concentration in Maternal Child Reproductive and Sexual Health (MCRSH)]

The Maternal Child Reproductive Sexual Health (MCRSH) Concentration within the CUNY SPH Master of Public Health (M.P.H.) degree is designed to enable students to focus on maternal, child, reproductive and sexual health issues within public health from a variety of perspectives, encompassing the sociological, political, familial and biological.

All students in this concentration will take the public health core and specialization requirements; take two required common MCRSH courses; choose one MCRSH elective; and undertake both Fieldwork and Capstone courses in the field of MCRSH.

Required Concentration Courses:

- Maternal, Child, Reproductive, and Sexual Health: Socio-Historical Contexts (PH 725) is offered at the CUNY Graduate Center.
- Maternal and Child Health A Life Course Perspective (EPI 77003 - Hunter SPH Course, or PHE 724)]

Electives (12 credits): [*Elective(s) to be selected with faculty advisement. The nine credits required for the MCRSH concentration count toward the twelve credits of electives.*]

The Program offers skill-based, targeted electives as well as specialized content courses to be selected with the approval of the graduate adviser.]

Supervised Internship (3 credits)

PHE 770: Public Health Internship (180 hours) (3 credits)

3. To:**M.P.H. Program in Public Health**

The Lehman College Master of Public Health (MPH) Program prepares students for professional careers in the healthcare field as practitioners and researchers. Students will also be prepared to continue in graduate studies to pursue doctoral degrees. The Lehman MPH Program is a member of the CUNY School of Public Health and is accredited by the Council on Education for Public Health.

Admission Requirements

- Bachelor's degree in a health-related field from an accredited college or university, or a bachelor's degree with successful completion of relevant coursework.
- At least one year of work experience in public health or related work in the health field. Volunteer experience or internship may be considered in certain circumstances.
- Ability to successfully pursue graduate study by having attained a minimum grade average of B in the undergraduate record.
- Two letters of recommendation and a personal essay.
- Scores from the Aptitude Section of the Graduate Record Examination or proof of an earned master's degree from an accredited U.S. university.
- If submitting documents from institutions whose language of instruction is not English, an official translation and evaluation of the transcript and competency in English as demonstrated through TOEFL scores of at least 550.

The Lehman M.P.H. Program offers two specializations: one in Community-Based Public Health and Health Equity and a second in Public Health Geographic Information Science.

- The Community-Based Public Health and Health Equity track focuses on health equity and social justice with emphasis on program planning and evaluation, and research methods.
- The Public Health Geographic Information Science track offers courses in spatial analysis, computer-assisted cartography, geostatistics, and exploration and interpretation of geographic data as applied to public health, environmental justice and health equity.
- In addition, the MPH Program offers an optional concentration in Maternal Child Reproductive Sexual Health (MCRSH). The purpose of this concentration is to guide students toward an integrated view of the contribution of maternal, child, reproductive, and sexual health to population health through a wide array of

courses. This concentration can be taken in conjunction with either specialization.

Internships and culminating experiences prepare students for careers as practitioners and researchers, or for pursuing doctoral degrees.

Course and Credit Requirements are as follows: (45 credits)

Core Courses (15 credits)

- PHE 600 Biostatistics in Public Health (3 credits)
- PHE 606 Public Health Epidemiology (3 credits)
- PHE 701 Public Health Policy and Management (3 credits)
- PHE 702 Environmental Health (3 credits)
- PHE 703 Social and Behavioral Dimensions of Health (3 credits)

Specialization: Community-based Public Health and Health Equity (15 credits)

- PHE 700: History and Philosophy of Public Health (3 credits)
- PHE 709: Health Equity and Social Justice (3 credits)
- PHE 710: Applications of Research Methods in Public Health (3 credits)
- PHE 715: Community-based Public Health Program Planning and Eval. (3credits)
- PHE 790: Public Health Capstone Seminar (3 credits)

Specialization: Public Health Geographic Information Science (15 credits)

- PHE 704: Environmental Health GIScLab (co-requisite with PHE 702) (1 credit, 1 hour)
- PHE 705: Principles of GISc for Public Health (3 credits, 4 hours)
- PHE 706: Spatial Analysis and Environmental Modeling for Public Health (4 credits, 6 hours)
- PHE 717: The Geography of Urban Health (3 credits, 4 hours)
- PHE 791: Workshop in GISc Research for Public Health (4 credits, 4 hours)

Electives (12 credits) The Program offers skill-based, targeted electives as well as specialized content courses. Other health-related graduate courses may be selected as electives with the approval of the graduate adviser.

Optional Concentration (9 credits – counted towards electives)

The MPH Program offers an optional concentration in Maternal Child Reproductive Sexual Health (MCRSH). The purpose of this concentration is to guide students towards an integrated view of the contribution of maternal, child, reproductive and sexual health to population health through a wide array of courses. This concentration can be taken in conjunction with either specialization.

The Maternal Child Reproductive Sexual Health (MCRSH) Concentration within the CUNY SPH Master of Public Health (MPH) degree is designed to enable students to focus on maternal, child, reproductive and sexual health issues within

public health from a variety of perspectives, encompassing the sociological, political, familial and biological.

Maternal Child Reproductive and Sexual Health (9 credits)

PHE 725: Maternal, Child, Reproductive and Sexual Health: Socio-historical Contexts (SUBSTITUTION: PH725, CUNY Graduate Center or COMHE 77025, Hunter College) (3 credits/3 hours)

PHE 724: Maternal and Child Health: A Life Course Perspective (SUBSTITUTION: EPI 77003, Hunter College) (3 credits/3 hours)

ELECTIVE Selected with faculty advisor (3 credits/3 hour)

Supervised Internship (3 credits)

PHE 770: Public Health Internship (180 hours) (3 credits)

4. Rationale:

The addition of PHE 725 is one of the three content courses required for the optional concentration in Maternal Child Reproductive and Sexual Health (MCRSH) in the Master of Public Health Program for the CUNY School of Public Health (SPH). It is available to all students in the SPH consortium, which includes Lehman, Hunter, Brooklyn and the Graduate Center. This course will be offered at the Hunter and Brooklyn campus alternating semesters. A Lehman course number is required to facilitate registration and to simplify transfer of credits. Since this course has been added, the MPH curriculum and Lehman bulletin needed to be updated.

Lastly, it appears that the admission standards were removed from the bulletin inadvertently, when the curriculum was updated last year. Therefore, the admission standards are not new but simply are being added, again, to correct the bulletin.

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

Department of Middle and High School Education

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

1. **Type of Change:** Description, Grading

2. **From:**

ESC 611: Seminar in Secondary and TESOL Education. 2 hours, 1 credit. Analysis of problems or practices in secondary school and TESOL teaching. Weekly seminar and assigned in-school activities required. PREREQ: Departmental permission. COREQ: ESC 595 or 797

3. **To:**

ESC 611: Seminar in Secondary and TESOL Education. 2 hours, 1 credit. Analysis of problems or practices in secondary school and TESOL teaching. Weekly seminar and assigned in-school activities required. Required state certification student teaching assessments supported through the course. This is a credit-bearing course that will use a Pass/No Pass grading basis. PREREQ: Departmental permission. COREQ: ESC 595 or 797

4. **Rationale:**

The grading basis addresses the New York State-required teaching certification assessments. The new assessment, the edTPA, will be graded by New York State and is based on a pass/no pass assessment model. In order to be consistent with the assessment model required by New York State, this proposal requests changing EDE 756 to a pass/no pass assessment model as well. Upon approval of this request the Grading Basis for this course will change from “Graded” to “P/NP”. The grading basis for “graded” allocates letter grades, A, A-, B+, etc., to be assigned to the course and is factored into the GPA. Whereas, the “P/NP” grading basis allocates only a pass and a no pass option and is not factored into the GPA. For example, if a student receives an NP grade, they will not receive credit for the course and the NP grade will not be punitive (not factored into GPA).

5. **Date of departmental approval:** November 6, 2013

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code **25794**

1. Type of Change: Admission Requirement

2. From:

M.A. Program in Social Studies Education

To be eligible for the Master of Arts degree in Social Studies, students must successively complete the following 39-42 credit sequence:

I. Content Core

Students must satisfy the following required areas of study. These requirements may be met by either graduate courses or by undergraduate coursework taken prior to or after commencement of graduate study. Undergraduate transcripts will be evaluated on an individual basis as part of the admissions process. Lehman undergraduates can satisfy these requirements prior to admission in the master's program by choosing courses for their distribution requirements in the areas listed.

- Anthropology
- Sociology
- Geography
- Political science
- Economics
- Psychology
- Two history survey courses, one in U.S. history and one in European or world history.

History courses (15 credits)

All students must take: HIU 534 and HIW 533. The remaining 9 credits to be chosen in consultation with the Program Adviser.

II. Pedagogical Core. A total of 21 graduate credits (or equivalent) in the following sequences:

12 credits in General Education sequence:

ESC 501 (3): Psychological Foundations of Education.

ESC 502 (3): Historical Foundations of Education: A Multicultural Perspective.

ESC 506 (3) or the equivalent (3): Special Needs Education in TESOL and Secondary Settings.

ESC 529 (3): Language, Literacy and Educational Technology.

9 credits in the Social Studies Education sequence:

(Candidates must have submitted passing scores to the Program Coordinator from the **[LAST (Liberal Arts and Science Test)]** prior to enrolling in ESC 533: Teaching World History in Middle and High School and/or ESC 534: Teaching U.S. History and Government.)

ESC 533 (3): Teaching World History in Middle and High School.

ESC 534 (3): Teaching U.S. History and Government.

ESC 708 (3): Project Seminar in Curriculum, Materials, and Assessment in Specialized Areas.

Successfully complete a culminating project in ESC 708. See Program Coordinator for culminating project requirements.

III. Practicum

Candidates must obtain a B or better in each methods course as well as have passed the remaining certification examinations to be eligible to enroll in ESC 595 and ESC 612 OR ESC 596 and ESC 611.

ESC 595 (2): Internship in Classroom Teaching and ESC 611 (1): Teaching Seminar OR ESC 596 (3): Student Teaching in Middle and High School (1 full-time semester supervised student teaching) and ESC 612 (3): Student Teaching Seminar.

To graduate, students must complete all degree requirements, including educational core courses, and any additional requirements including pedagogical, content area and/or distribution courses with an overall GPA of 3.0 or better.

3. To:

M.A. Program in Social Studies Education

To be eligible for the Master of Arts degree in Social Studies, students must successively complete the following 39-42 credit sequence:

I. Content Core

Students must satisfy the following required areas of study. These requirements may be met by either graduate courses or by undergraduate coursework taken prior to or after commencement of graduate study. Undergraduate transcripts will be evaluated on an individual basis as part of the admissions process. Lehman undergraduates can satisfy these requirements prior to admission in the master's program by choosing courses for their distribution requirements in the areas listed.

Anthropology

Sociology

Geography

Political science

Economics

Psychology

Two history survey courses, one in U.S. history and one in European or world history.

History courses (15 credits)

All students must take: HIU 534 and HIW 533. The remaining 9 credits to be chosen in consultation with the Program Adviser.

II. Pedagogical Core. A total of 21 graduate credits (or equivalent) in the following sequences:

12 credits in General Education sequence:

ESC 501 (3): Psychological Foundations of Education.

ESC 502 (3): Historical Foundations of Education: A Multicultural Perspective.

ESC 506 (3) or the equivalent (3): Special Needs Education in TESOL and Secondary Settings.

ESC 529 (3): Language, Literacy and Educational Technology.

9 credits in the Social Studies Education sequence:

(Candidates must have submitted passing scores to the Program Coordinator from the Assessment of Literacy Skills Test (ALST) prior to enrolling in ESC 533: Teaching World History in Middle and High School and/or ESC 534: Teaching U.S. History and Government.)

ESC 533 (3): Teaching World History in Middle and High School.

ESC 534 (3): Teaching U.S. History and Government.

ESC 708 (3): Project Seminar in Curriculum, Materials, and Assessment in Specialized Areas.

Successfully complete a culminating project in ESC 708. See Program Coordinator for culminating project requirements.

III. Practicum

Candidates must obtain a B or better in each methods course as well as have passed the remaining certification examinations to be eligible to enroll in ESC 595 and ESC 612 OR ESC 596 and ESC 611.

ESC 595 (2): Internship in Classroom Teaching and ESC 611 (1): Teaching Seminar

OR ESC 596 (3): Student Teaching in Middle and High School (1 full-time semester supervised student teaching) and ESC 612 (3): Student Teaching Seminar.

To graduate, students must complete all degree requirements, including educational core courses, and any additional requirements including pedagogical, content area and/or distribution courses with an overall GPA of 3.0 or better.

4. Rationale:

New York State recently replaced the Liberal Arts and Sciences Test (LAST) with the Assessment of Literacy Skills Test (ALST).

These changes do not impact learning goals or objectives of the program, but they do bring the program into alignment with revisions in the NYSED teacher certification tests.

5. Date of departmental approval: October 22, 2013

OF THE
CITY UNIVERSITY OF NEW YORK**

Department of Middle and High School Education

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code 27819

1. **Type of Change:** Admission Requirement

2. **From:**

Social Studies Education Advanced Certificate Requirements

Students must consult with an adviser in the Social Studies Education program before starting their certificate program. During their first semester, matriculated students are required to plan their program with a Social Studies Education adviser. All students must complete the 24-27-credit curriculum below. The **[LAST]** and CST examinations must be passed in order to take the Social Studies teaching methods courses. In order to be recommended for certification, candidates must pass the remaining current certification examinations and complete the Social Studies Education Certificate with a 3.0 or better GPA, and meet any additional New York State requirements.

Social Studies Education Advanced Certificate Admission Requirements

- Possess a bachelor's degree (or its equivalent) from an accredited college or university that meets New York State's requirements for a general education core in liberal arts and sciences.
- Possess a master's degree in an approved social studies content area.
- Have completed a minimum of 36 credits in history or in an approved social studies content area.
- Submit scores on the NYS **[LAST]** Teacher Examination and the NYS Content Specialty Test (CST) in Social Studies.
- Demonstrate the ability to pursue graduate study successfully by having a master's Grade Point Average of 3.0 or better.
- Submit two (2) letters of recommendation and a 500-word essay on career goals.
- Participate in an interview.
- Satisfy appropriate voice, speech, and health standards.
- Meet additional departmental, divisional, and New York State requirements, if any.
- If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

Advanced Certificate in Social Studies Education (24-27 Credits)

The 24-27 credit certificate curriculum consists of three instructional areas.

I. Foundations of Education (12): ESC 501 (3), ESC 502 (3), ESC 506 (3) or the equivalent, ESC 529 (3).

II. Methods, Curriculum, and Instruction (9): ESC 534 (3) and 6 additional credits to be selected in consultation with the Program Coordinator.

III. Practicum (3-6): ESC 595 (3) or ESC 596 (6)

ESC 501, 502, 529, and 534 require 25 hours of fieldwork each and 15 hours of field work for ESC 506 or the equivalent.

ESC 534 and all other Social Studies teaching methods courses include a combined total of 25 hours of fieldwork.

ESC 595 (2): Teaching Internship for in-service teachers and will include a weekly seminar, ESC 611(1).

ESC 596 (3): Student Teaching will be taken by pre-service teachers and will include a weekly seminar, ESC 612 (3).

3. To:

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code: 27026

Program Code: 25790

1. Type of Change: Admission Requirement

2. From:

M.S.ED. Program in Science Education

This program leads to a master's degree in Science Education. Upon completion of additional requirements, candidates will be eligible to receive New York State Initial Certification to teach one or more of the following sciences at the level of adolescent education (Grades 7-12): biology, chemistry, earth science, general science, and physics.

To be eligible for the Science Education Master's Program, potential students must fall into one of the following categories:

Sequence 1: For candidates who have, or are eligible for, Initial Certification in subjects other than science and who seek certification as science teachers.

Sequence 2: For candidates who have completed at least 36 credits in biology, chemistry, geology, or physics, but who lack professional education coursework and who seek Initial Certification.

Sequence 3: For candidates who hold a valid Transitional B certificate in biology, chemistry, earth science, general science, or physics, Grades 7-12, from New York State.

Science Education Admission Requirements

1. Possess a bachelor's degree (or its equivalent) from an accredited college or university with an overall index of 3.0 or better.
2. Demonstrate the ability to successfully pursue graduate study. (Above-average achievement in academic work and in the teaching specialization is required).
3. Submission of scores on the New York State [**Liberal Arts and Sciences Test (LAST)**] and Content Specialty Test (CST).
4. For Sequence 1 admission: An undergraduate science major or the equivalent and a minor in middle and high school education or the equivalent.
5. For Sequence 2 and 3 admission: At least 36 credits in biology, chemistry, geology, or physics. Matriculants may be asked to complete undergraduate and/or graduate prerequisite coursework in addition to degree requirements, based on the evaluation of their credentials by an adviser in the Science Education Program.
6. Satisfy appropriate voice, speech, and health standards.

7. Submit two letters of recommendation, at least one of which is from a college or university science instructor.
8. Personal interview.

Science Education Degree Requirements

Students must consult with an adviser in the Science Education Program before starting their master's program. During their first semester, matriculated students are required to plan their graduate program with an adviser in the Science Education Program. Students must complete one of the **[two]** sequences outlined below.

Curriculum

The curriculum for each sequence is distributed in four instructional modules as follows:

Sequence 1 (33-36 credits)

Core Education Sequence (3-6 credits): ESC 529 (3) Based on the Program Coordinator's assessment of prior experience and qualification, candidates may also be required to take ESC 519 (3).

Curriculum and Instruction (12 credits): ESC 506 (3), ESC 755 (3), ESC 767 or equivalent (3), ESC 770 (3).

Research and Culmination Projects (6 credits): ESC 705 (3), ESC 706 (1), ESC 707 (2) or ESC 705 (3) and ESC 708(3).

Science Content (12 credits): Science content course requirements must align with undergraduate science preparation and with intended certification subject area. Consult with an adviser in the Science Education Program for the appropriate course(s) to satisfy this requirement. Such courses may include but are not limited to:

Biology: BIO 611, BIO 612, BIO 618.

Chemistry: CHE 542, CHE 544, CHE 548.

Geology: GEO 501, GEO 502, GEO 503.

Physics: PHY 601, AST 601, AST 602.

General Science: BIO 612, CHE 542, GEO 501, and PHY 601

Sequence 2 (39-48 credits)

Core Education Sequence (15-18 credits): ESC 501 (3), ESC 502 (3), ESC 519 (3), ESC 529 (3), AND ESC 595 (2) and ESC 611 (1) or ESC 596 (3) and ESC 612 (3).

Curriculum and Instruction (12 credits): ESC 506 (3), ESC 755 (3), ESC 767 or equivalent (3), ESC 770 (3).

Research and Culmination Projects (6 credits): ESC 705 (3), ESC 706 (1), ESC 707 (2) or ESC 705 (3) and ESC 708(3).

Science Content (6-12 credits): Science content course requirements must align with undergraduate science preparation and with intended certification subject area. Consult with an adviser in the Science Education Program for the appropriate course(s) to satisfy this requirement. Such courses may include but are not limited to:

Biology: BIO 618 and BIO 611 or BIO 612;

Chemistry: CHE 542 and CHE 544 or CHE 548;

Geology: GEO 501 and GEO 502 or GEO 503;

Physics: PHY 601 and AST 601 or AST 602; and

General Science: BIO 618, CHE 542, GEO 501, PHY 601.

Sequence 3 (34-36 credits)

[34-36 credits

ESC 501: Psychological Foundations of Education (3 credits)

ESC 519: Teaching Science in Middle and High School (3 credits)

ESC 789: Independent Study in Curriculum Development (1 credit)

ESC 506: Special Needs Education in TESOL and Secondary Setting (3 credits)

ESC 755: Teaching the Historical Development of Science (3 credits)

Content Course (3-4 credits)

Content Course (3-4 credits)

ESC 502: Social and Historical Foundations of Education (3 credits)

ESC 767: Museum as a Resource for Teaching Science (3 credits) or equivalent

ESC 708: Project Seminar in Curriculum, Materials, and Assessment in
Specialized Areas (3 credits)ESC 770: Methods of Teaching Science in Secondary School: Special Topics

ESC 705: Methods of Educational Research Areas (3 credits)]

3. To:

M.S.ED. Program in Science Education

This program leads to a master's degree in Science Education. Upon completion of additional requirements, candidates will be eligible to receive New York State Initial Certification to teach one or more of the following sciences at the level of adolescent education (Grades 7-12): biology, chemistry, earth science, general science, and physics.

To be eligible for the Science Education Master's Program, potential students must fall into one of the following categories:

Sequence 1: For candidates who have, or are eligible for, Initial Certification in subjects other than science and who seek certification as science teachers.

Sequence 2: For candidates who have completed at least 36 credits in biology, chemistry, geology, or physics, but who lack professional education coursework and who seek Initial Certification.

Sequence 3: For candidates who hold a valid Transitional B certificate in biology, chemistry, earth science, general science, or physics, Grades 7-12, from New York State.

Science Education Admission Requirements

1. Possess a bachelor's degree (or its equivalent) from an accredited college or university with an overall index of 3.0 or better.
2. Demonstrate the ability to successfully pursue graduate study. (Above-average achievement in academic work and in the teaching specialization is required).
3. Submission of scores on the New York State Academic Literacy Skills Test (ALST) and Content Specialty Test (CST).

4. For Sequence 1 admission: An undergraduate science major or the equivalent and a minor in middle and high school education or the equivalent.
5. For Sequence 2 and 3 admission: At least 36 credits in biology, chemistry, geology, or physics. Matriculants may be asked to complete undergraduate and/or graduate prerequisite coursework in addition to degree requirements, based on the evaluation of their credentials by an adviser in the Science Education Program.
6. Satisfy appropriate voice, speech, and health standards.
7. Submit two letters of recommendation, at least one of which is from a college or university science instructor.
8. Personal interview.

Science Education Degree Requirements

Students must consult with an adviser in the Science Education Program before starting their master's program. During their first semester, matriculated students are required to plan their graduate program with an adviser in the Science Education Program. Students must complete one of the three sequences outlined below.

Curriculum

The curriculum for each sequence is distributed in four instructional modules as follows:

Sequence 1 (33-36 credits)

Core Education Sequence (3-6 credits): ESC 529 (3) Based on the Program Coordinator's assessment of prior experience and qualification, candidates may also be required to take ESC 519 (3).

Curriculum and Instruction (12 credits): ESC 506 (3), ESC 755 (3) OR ESC 595 (2) and ESC 611 (1), ESC 767 or equivalent (3), ESC 770 (3).

Research and Culmination Projects (6 credits): ESC 705 (3), ESC 706 (1), ESC 707 (2) or ESC 705 (3) and ESC 708(3).

Graduate Science Content (12 credits): Science content course requirements must align with undergraduate science preparation and with intended certification subject area.

Consult with an adviser in the Science Education Program for the appropriate course(s) to satisfy this requirement. Such courses may include but are not limited to:

Biology: BIO 611, BIO 612, BIO 618.

Chemistry: CHE 542, CHE 544, CHE 548.

Geology: GEO 501, GEO 502, GEO 503.

Physics: PHY 601, AST 601, AST 602.

General Science: BIO 612, CHE 542, GEO 501, and PHY 601

Sequence 2 (39-48 credits)

Core Education Sequence (15-18 credits): ESC 501 (3), ESC 502 (3), ESC 519 (3), ESC 529 (3), AND ESC 595 (2) and ESC 611 (1) or ESC 596 (3) and ESC 612 (3).

Curriculum and Instruction (12 credits): ESC 506 (3), ESC 755 (3), ESC 767 or equivalent (3), ESC 770 (3).

Research and Culmination Projects (6 credits): ESC 705 (3), ESC 706 (1), ESC 707 (2) or ESC 705 (3) and ESC 708(3).

Graduate Science Content (6-12 credits): Science content course requirements must align with undergraduate science preparation and with intended certification subject

area. Consult with an adviser in the Science Education Program for the appropriate course(s) to satisfy this requirement. Such courses may include but are not limited to:
Biology: BIO 618 and BIO 611 or BIO 612;
Chemistry: CHE 542 and CHE 544 or CHE 548;
Geology: GEO 501 and GEO 502 or GEO 503;
Physics: PHY 601 and AST 601 or AST 602; and
General Science: BIO 618, CHE 542, GEO 501, PHY 601.

Sequence 3 (34-36 credits)

Core Education Sequence (10 credits): ESC 501 (3), ESC 502 (3), ESC 519 (3), ESC 789 (1).

Curriculum and Instruction (12 credits): ESC 506 (3), ESC 755 (3), ESC 767 or equivalent (3), ESC 770 (3).

Research and Culmination Projects (6 credits): ESC 705 (3) and ESC 708 (3).

Graduate Science Content (6-8 credits): Science content course requirements must aligned with undergraduate science preparation and with intended certification subject area. Consult with an adviser in the Science Education Program for the appropriate course(s) to satisfy this requirement. Such courses may include but are not limited to:

Biology: BIO 618 and BIO 611 or BIO 612;

Chemistry: CHE 542 and CHE 544 or CHE 548;

Geology: GEO 501 and GEO 502 or GEO 503;

Physics: PHY 601 and AST 601 or AST 602; and

General Science: BIO 618, CHE 542, GEO 501, PHY 601.

4. Rationale:

These changes do not impact learning goals or objectives of the program, but they do bring the program into alignment with revisions in the NYSED teacher certification tests.

Sequence 1 candidates are already initially certified, but some can benefit from a clinical mentorship in the classroom (ESC 595 / ESC 611).

We are adding the word “graduate” to “science content courses” to clarify the level at which these courses are expected to be taken.

The formatting and presentation of the curriculum for Sequence 3 is also being aligned with that of Sequences 1 and 2, but there are no substantial curriculum changes.

5. Date of departmental approval: October 22, 2013

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code: 27818

1. **Type of Change:** Admission Requirement

2. **From:**

Advanced Certificate in Science Education (21-24 credits)

This program is designed for candidates who already have a bachelor's and a master's degree in Biology, Chemistry, Geology, or Physics and who seek New York State Certification in one of the following content areas: Biology, Chemistry, Earth Science, and Physics, Grades 7-12.

Program Requirements

Students must consult with an adviser in the Science Education program before starting their certificate program. During their first semester, matriculated students are required to plan their program with a Science Education adviser. All students must complete the 21- to 24-credit curriculum below. In order to be recommended for NYS certification at the completion of the Certificate Program, candidates must pass the **[LAST]**, the CST in one of the sciences, the **[Written Assessment of Teaching Skills (ATS-W)]**, and meet any additional New York State requirements.

Admission Requirements

- 1) Possess a bachelor's degree (or its equivalent) from an accredited college or university that meets New York State's requirements for a general education core in liberal arts and sciences.
- 2) Possess an approved master's degree in an appropriate content area. Have completed a minimum of 36 credits in biology, chemistry, geology, or physics.
- 3) Demonstrate the ability to pursue graduate study successfully by having a master's Grade Point Average of 3.0 or better.
- 4) Satisfy the content requirements for New York State initial certification. Submit scores on the NYS **[LAST Teacher Examination]** and the NYS Content Specialty Test (CST.)
- 5) Submit two (2) letters of recommendation and a 500-word essay on career goals. Participate in an interview.
- 6) Meet additional Departmental, divisional, and New York State requirements, if any.
- 7) If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

Curriculum

The 21- to 24-credit certificate curriculum consists of two instructional areas:

I. Core Education Sequence (12 -15 credits)

[ESC 501: Psychological Foundations of Education (3 credits)

ESC 502: Social Foundations of Education: A Multicultural Perspective (3 credits)

ESC 529: Language, Literacy, and Technology in Education (3 credits) AND

ESC 595: Internship in Classroom Teaching (2 credits) and ESC 611(1) or ESC 596 (3 credits) and ESC 612 (3 Credits)

II. Methods, Curriculum, and Instruction (9 credits)

ESC 519: Teaching Science in Middle and High School (3 credits) and ESC 506 (3) and 3 additional credits to be selected in consultation with the Program Coordinator from the courses **[below]**:

ESC 767: The Museum as a Resource for Teaching Science (3 credits) or equivalent

ESC 770: Methods of Teaching Science in Secondary School: Special Topics (3 credits)]

3. To:

Advanced Certificate in Science Education (21-24 credits)

This program is designed for candidates who already have a bachelor's and a master's degree in Biology, Chemistry, Geology, or Physics and who seek New York State Certification in one of the following content areas: Biology, Chemistry, Earth Science, and Physics, Grades 7-12.

Program Requirements

Students must consult with an adviser in the Science Education program before starting their certificate program. During their first semester, matriculated students are required to plan their program with a Science Education adviser. All students must complete the 21- to 24-credit curriculum below. In order to be recommended for NYS certification at the completion of the Certificate Program, candidates must pass the Assessment of Literacy Skills Test (ALST), Educating All Students (EAS), Teacher Performance Assessment (edTPA), and the CST in one of the sciences, and meet any additional New York State requirements.

Admission Requirements

- 1) Possess a bachelor's degree (or its equivalent) from an accredited college or university that meets New York State's requirements for a general education core in liberal arts and sciences.
- 2) Possess an approved master's degree in an appropriate content area. Have completed a minimum of 36 credits in biology, chemistry, geology, or physics.
- 3) Demonstrate the ability to pursue graduate study successfully by having a master's Grade Point Average of 3.0 or better.
- 4) Satisfy the content requirements for New York State initial certification. Submit scores on the NYS ALST and the NYS Content Specialty Test (CST.)
- 5) Submit two (2) letters of recommendation and a 500-word essay on career goals. Participate in an interview.
- 6) Meet additional Departmental, divisional, and New York State requirements, if any.
- 7) If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

Curriculum

The 21- to 24-credit certificate curriculum consists of two instructional areas:

I. Core Education Sequence (12-15 credits): ESC 501 (3), ESC 502 (3), ESC 529 (3) AND ESC 595: (2) and ESC 611 (1) OR ESC 596 (3) and ESC 612 (3)

II. Methods, Curriculum, and Instruction (9 credits): ESC 519 (3), ESC 506 (3) and 3 additional credits to be selected in consultation with the Program Coordinator from the following courses: ESC 767 (3) or equivalent, ESC 770 (3)

4. Rationale:

These changes do not impact learning goals or objectives of the program, but they do bring the program into alignment with revisions in the NYSED teacher certification tests.

Course titles have been eliminated in alignment with the curriculum presentation for the master's degree.

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code: 25784

1. Type of Change: Admission Requirement; Degree Requirement

2. From:

M.S. Ed. Program in **Teaching English to Speakers of Other Languages (TESOL)**

This program is designed for students seeking a master's degree in Teaching English to Speakers of Other Languages (TESOL). It can also provide initial New York State certification in English to speakers of other languages (ESOL) for teachers (Pre-K-Grade 12), or additional ESOL certification for those already certified. Holders of this master's degree can obtain professional certification in ESOL upon completion of additional requirements. Applicants for this degree include:

Sequence 1 (33 credits). Students who already possess New York State certification and who seek additional certification as teachers of ESOL PreK-grade 12.

Sequence 2 (39-42 credits). Liberal arts and sciences graduates who lack education courses and who seek initial certification in ESOL PreK-grade 12.

Sequence 3 (30-33 credits). Teachers and prospective teachers of adult education and others who desire advanced study in TESOL but are not seeking Pre-K-grade 12 certification.

Sequence 4 (**[33-36 credits]**). **[Graduates of linguistics programs or others who have met requirements for linguistics and foundations courses and who seek PreK-grade 12 ESOL certification.]**

Sequence 5 (36 credits). Teachers who hold a valid Transitional B certificate in ESOL from New York State.

Admission Requirements

1. Possess a bachelor's degree (or its equivalent) with an overall index of 3.0 or better, and a liberal arts and sciences major of at least 30 credits from an accredited college or university. In order to be recommended by Lehman College for ESOL certification, candidates must have successfully completed a liberal arts and sciences core specific to TESOL teachers (see "Additional Requirements for Initial and Professional Certification in ESOL" below).
2. Demonstrate the ability to pursue graduate study successfully by having an undergraduate index of B or a master's degree.
3. For Sequence 1, possess New York State teacher certification. For Sequence 5, hold a valid New York State Transitional B certificate in TESOL.

4. For Sequences 2 and 4, submit scores on the New York State **[Liberal Arts and Sciences Test (LAST)]**.
5. **[Candidates seeking matriculation in]** Sequence 4 **[must]** meet with the advisor prior to applying for matriculation to determine eligibility.
6. Demonstrate the study of a language and culture other than English (12 credits) or an equivalent experience.
7. Submit two (2) letters of recommendation and a 500-word essay on career goals.
8. Participate in an interview that requires producing a writing sample in English[, **or, if the applicant resides abroad and cannot participate in an interview, present a Test of Spoken English (TSE) score of at least 55.**
9. **If the undergraduate degree was earned in a language other than English, present a paper-based TOEFL score of at least 600 and a Test of Written English (TWE) score of at least 6, a computer-based TOEFL score of at least 250, an internet TOEFL score of at least 100, or evidence of a master's degree earned in English.]**
10. Satisfy appropriate voice, speech, and health standards.
11. Meet additional departmental, divisional, and New York State requirements, if any.
12. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

TESOL Degree Requirements

Students must consult with an advisor in the TESOL program before starting their master's program. During their first semester, matriculated students are required to plan their graduate program with an advisor in the TESOL program. All students will complete the curriculum corresponding to one of the sequences below: 33 credits (Sequence 1); 39-42 credits (Sequence 2); 30-33 credits (Sequence 3); or **[33-36]** credits (Sequence 4) or 36 credits (Sequence 5). All courses must be selected in consultation with, and with the approval of, an advisor in TESOL.

Curriculum: Sequence 1 (33 credits):

The 33-credit curriculum for Sequence 1 consists of six instructional areas.

- Language Education (12): ESC 757 (3), ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): **[EDC/EDE]** 727 (3), ESC 761 (3), and ESC 766 (3).
- Practicum (3): ESC 797 (2) and ESC 611 (1).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 2 (39-42 credits):

The 39-42 credit curriculum for Sequence 2 consists of six instructional areas.

- Foundations (9): ESC 501 (3), ESC 502 (3), and ESC 506 (3).
- Language Education (12): ESC 757 (3), ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.

- Methods, Materials, and Evaluation (9): **[EDC/EDE] 727 (3)**, ESC 761 (3), and 766 (3).
- Practicum (3-6): ESC 797 (2) and ESC 611 (1) OR ESC 798 (3) and ESC 612 (3).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 3 (33 credits):

The 30-33 credit curriculum for Sequence 3 consists of six instructional areas.

- Foundations (6): ESC 501 (3) and 502 (3) or 3-6 credits of TESOL electives selected in consultation with the advisor.
- Language Education (9): ESC 757 (3), ESC 725 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (6): ESC 761 (3) and 766 (3).
- Practicum (3-6): ESC 797 (2) and ESC 611 (1) or ESC 798 (3) and ESC 612 (3).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 4 (30-**[33]** credits):

The 30-**[33]**-credit curriculum for Sequence 4 consists of six instructional areas.

- **[Foundations (3): ESC 506 (3).]**
- Language Education (9): ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): **[EDC/EDE] 727 (3)**, ESC 761 (3), and ESC 766 (3).
- Practicum (**[3-]6**): **[ESC 797 (2) and ESC 611 (1)]** OR ESC 798 (3) and ESC 611 (3).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 5 (36 credits):

The 36-credit curriculum for Sequence 5 consists of six instructional areas.

- Foundations (6): ESC 502 (3), and ESC 506 (3)
- Language Education (12): SPE 703 (3), ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): **[EDC/EDE] 727 (3)**, ESC 761 (3), and ESC 766 (3).
- Practicum (3): ESC 797 (2) and ESC 611 (1),
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Additional Requirements for Initial and Professional Certification in **[TESOL and] ESOL**
 In order to be recommended for initial certification in ESOL Pre-K-grade 12, students must: (a) complete the master's degree (Sequences 1, 2, 4 or 5) with a cumulative index of 3.0 or better; (b) present passing scores on the following New York State examinations: **[LAST, ATS-W,]** and ESOL; and (c) demonstrate successful completion of a liberal arts and sciences core specific to **[T]ESOL** teachers. Please see advisor for more information.

In order to qualify for professional certification in ESOL, in addition to the master's degree (Sequences 1, 2, 4 or 5), teachers must complete one year of mentored, full-

time teaching and two years of full-time teaching in a public or private school which serves Pre-K-grade 12, and must meet any additional New York State requirements.

3. To:

M.S. Ed. Program in Teaching English to Speakers of Other Languages (TESOL)

This program is designed for students seeking a master's degree in Teaching English to Speakers of Other Languages (TESOL). It can also provide initial New York State certification in English to speakers of other languages (ESOL) for teachers (Pre-K-Grade 12), or additional ESOL certification for those already certified. Holders of this master's degree can obtain professional certification in ESOL upon completion of additional requirements. Applicants for this degree include:

Sequence 1 (33 credits). Students who already possess New York State certification and who seek additional certification as teachers of ESOL PreK-grade 12.

Sequence 2 (39-42 credits). Liberal arts and sciences graduates who lack education courses and who seek initial certification in ESOL PreK-grade 12.

Sequence 3 (30-33 credits). Teachers and prospective teachers of adult education and others who desire advanced study in TESOL but are not seeking Pre-K-grade 12 certification.

Sequence 4 (30 credits). Liberal arts and sciences graduates who have met requirements for linguistics, general education, and special education through prior coursework and who seek certification in ESOL PreK-grade 12.

Sequence 5 (36 credits). Teachers who hold a valid Transitional B certificate in ESOL from New York State.

Admission Requirements

1. Possess a bachelor's degree (or its equivalent) with an overall index of 3.0 or better, and a liberal arts and sciences major of at least 30 credits from an accredited college or university. In order to be recommended by Lehman College for ESOL certification, candidates must have successfully completed a liberal arts and sciences core specific to TESOL teachers (see "Additional Requirements for Initial and Professional Certification in ESOL" below).
2. Demonstrate the ability to pursue graduate study successfully by having an undergraduate index of B or a master's degree.
3. For Sequence 1, possess New York State teacher certification. For Sequence 5, hold a valid New York State Transitional B certificate in TESOL.
4. For Sequences 2 and 4, submit scores on the New York State Academic Literacy Skills Test (ALST).
5. For Sequence 4, meet with the advisor prior to applying for matriculation to determine eligibility. Prior coursework must be completed with a B or better.
6. Demonstrate the study of a language and culture other than English (12 credits) or an equivalent experience.
7. Submit two (2) letters of recommendation and a 500-word essay on career goals.
8. Participate in an interview that requires producing a writing sample in English.
9. If the undergraduate degree was earned in a language other than English, submit TOEFL scores (minimum):

Overall: Paper-based: 600; Computer-based: 250; Internet-Based (IBT): 75, not counting the Speaking subscore.

Writing subscore: Paper-based: 5.0; IBT: 24

Speaking subscore: Paper-based: 50; IBT: 26

10. Satisfy appropriate voice, speech, and health standards.
11. Meet additional departmental, divisional, and New York State requirements, if any.
12. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

TESOL Degree Requirements

Students must consult with an advisor in the TESOL program before starting their master's program. During their first semester, matriculated students are required to plan their graduate program with an advisor in the TESOL program. All students will complete the curriculum corresponding to one of the sequences below: 33 credits (Sequence 1); 39-42 credits (Sequence 2); 30-33 credits (Sequence 3); 30 credits (Sequence 4); or 36 credits (Sequence 5). All courses must be selected in consultation with, and with the approval of, an advisor in TESOL.

Curriculum: Sequence 1 (33 credits):

The 33-credit curriculum for Sequence 1 consists of six instructional areas.

- Foundations (3): ESC 506 (3).
- Language Education (12): ESC 757 (3), ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): ESC 727 (3), ESC 761 (3), and ESC 766 (3).
- Practicum (3): ESC 797 (2) and ESC 611 (1).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 2 (39-42 credits):

The 39-42 credit curriculum for Sequence 2 consists of six instructional areas.

- Foundations (9): ESC 501 (3), ESC 502 (3), and ESC 506 (3).
- Language Education (12): ESC 757 (3), ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): ESC 727 (3), ESC 761 (3), and 766 (3).
- Practicum (3-6): ESC 797 (2) and ESC 611 (1) OR ESC 798 (3) and ESC 612 (3).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 3 (30-33 credits):

The 30-33 credit curriculum for Sequence 3 consists of six instructional areas.

- Foundations (6): ESC 501 (3) and 502 (3) or 3-6 credits of TESOL electives selected in consultation with the advisor.
- Language Education (9): ESC 757 (3), ESC 725 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (6): ESC 761 (3) and 766 (3).

- Practicum (3-6): ESC 797 (2) and ESC 611 (1) or ESC 798 (3) and ESC 612 (3).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 4 (30 credits):

The 30-credit curriculum for Sequence 4 consists of six instructional areas.

- Language Education (9): ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): ESC 727 (3), ESC 761 (3), and ESC 766 (3).
- Practicum (6): ESC 798 (3) and ESC 611 (3).
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Curriculum: Sequence 5 (36 credits):

The 36-credit curriculum for Sequence 5 consists of six instructional areas.

- Foundations (6): ESC 502 (3), and ESC 506 (3)
- Language Education (12): SPE 703 (3), ESC 725 (3), ESC 759 (3), and ESC 760 (3).
- Cultural Perspectives (3): ESC 769 (3) or another course in cultural perspectives selected in consultation with the advisor.
- Methods, Materials, and Evaluation (9): ESC 727 (3), ESC 761 (3), and ESC 766 (3).
- Practicum (3): ESC 797 (2) and ESC 611 (1),
- Master's Project (3): ESC 708 (3). Culminates in an approved curriculum project.

Additional Requirements for Initial and Professional Certification in ESOL

In order to be recommended for initial certification in English to Speakers of Other Languages (ESOL) Pre-K-grade 12, students must: (a) complete the master's degree (Sequences 1, 2, 4 or 5) with a cumulative index of 3.0 or better; (b) present passing scores on the following New York State examinations: Assessment of Literacy Skills Test (ALST), Educating All Students (EAS), Teacher Performance Assessment (edTPA), and ESOL CST; and (c) demonstrate successful completion of a liberal arts and sciences core specific to ESOL teachers. Please see advisor for more information. In order to qualify for professional certification in ESOL, in addition to the master's degree (Sequences 1, 2, 4 or 5), teachers must complete one year of mentored, full-time teaching and two years of full-time teaching in a public or private school which serves Pre-K-grade 12, and must meet any additional New York State requirements.

4. Rationale:

These changes do not impact learning goals or objectives of the program, but they do bring the program into alignment with revisions in the NYSED teacher certification tests, administration of the TOEFL, and previous curriculum changes.

New York State recently replaced the Liberal Arts and Sciences Test (LAST) with the Assessment of Literacy Skills Test (ALST) and the Assessment of Teaching Skills-Written (ATS-W) with the Educating All Students (EAS) and the edTPA exams.

Changes in the TOEFL requirement reflect changes in the way that test is currently being administered. The minimum scores are in line with those of other TESOL programs in the CUNY system.

ESC 506 was inadvertently left off of Sequence 1 when it was added to all certification sequences in 2011, by NYS Education Department directive.

Sequence 3 was erroneously listed as requiring “33 credits.” The correct total is “30-33 credits.”

EDE/EDC 727 has been replaced by ESC 727, which was approved last year.

In its original form, Sequence 4 was too narrowly constructed and did not allow those without a linguistics degree to apply, even if they had met the program requirements in linguistics, general education, and special education. This change aligns better with the program’s goal of attracting a range of candidates from different content backgrounds.

Minor changes in the section on certification clarify that “ESOL” is the name for the NYS certification while “TESOL” is the name of the master’s degree. The full acronym of the ESOL Content Specialty Test (CST) was added to distinguish the test from the certification.

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code: 27026

1. Type of Change: Admission Requirement; Degree Requirement

2. From:

Advanced Certificate: Teaching English to Speakers of Other Languages (TESOL)

This program is designed for students who already have a master's degree, who possess New York State teacher certification, and who seek additional New York State certification in teaching English to speakers of other languages (ESOL) Pre-K-grade 12.

TESOL Certificate Admission Requirements

1. Possess a bachelor's degree (or its equivalent) with an overall index of 3.0 or better, and a liberal arts and sciences major of at least 30 credits from an accredited college or university. In order to be recommended by Lehman College for ESOL certification, candidates must have successfully completed a liberal arts and sciences core specific to TESOL teachers (see "Additional Requirements for Initial and Professional Certification in ESOL" below).
2. New York State teacher certification.
3. A master's degree appropriate for New York State professional certification.
4. Demonstrate the study of a language other than English (12 credits) or an equivalent experience.
5. The study of cultural perspectives of one or more ESL populations (at least 3 credits).
6. Two (2) letters of recommendation and a 500-word essay on career goals.
7. Participate in an interview, which requires producing a writing sample in English.
8. Satisfy appropriate voice, speech, and health standards.
9. Meet additional Departmental, divisional, and New York State requirements, if any.
10. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

TESOL Certificate Requirements

Students must consult with an adviser in the TESOL program before starting their certificate program. During their first semester, matriculated students are required to plan their program with a TESOL adviser. All students must complete the 27-credit curriculum below.

In order to be recommended for ESOL certification, candidates must complete the Advanced Certificate: TESOL program with a cumulative index of 3.0 or better, present passing scores on the ESOL content area examination, (c) demonstrate successful completion of a liberal arts and sciences core specific to TESOL teachers (please see adviser for more information), and meet any additional New York State requirements.

TESOL Certificate Curriculum

The 27-credit certificate curriculum consists of three instructional areas:

Foundations (3): ESC 506 (3) or equivalent.

Language Education (12): ESC 757 (3), ESC 759 (3), ESC 760 (3), ESC 725 (3).

Methods, Materials, and Evaluation (9): **[EDC/EDE]** 727 (3), ESC 761 (3), and ESC 766 (3).

Practicum (3): ESC 797 (2) and ESC 611 (1).

3. To:

Advanced Certificate: Teaching English to Speakers of Other Languages (TESOL)

This program is designed for students who already have a master's degree, who possess New York State teacher certification, and who seek additional New York State certification in teaching English to speakers of other languages (ESOL) Pre-K-grade 12. TESOL Certificate Admission Requirements

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Codes: 25827 and 25826

1. **Type of Change:** Admission Requirement; Degree Requirement
2. **From:**

M.S.ED. Program in Mathematics EDUCATION
MIDDLE CHILDHOOD EDUCATION (5-9) OR ADOLESCENT EDUCATION (7-12)

The graduate program for middle and high school mathematics teachers leads to a Master of Science in Education degree. Registered with the State Education Department, this program leads to both initial and professional certification to teach mathematics in grades 5-9 or 7-12, provided all other requirements have been satisfied.

- A. To be eligible for the Master's in Mathematics Education for Grades 5-9, candidates must fall into one of the following categories:
 - Sequence 1 (36-42 credits).** For liberal arts and sciences graduates who have completed 18 credits in mathematics, including Calculus I and Calculus II, but who lack professional education coursework.
 - Sequence 2 (35-38 credits).** For teachers who hold a Transitional B certificate in Mathematics from New York State through special CUNY and NYCDOE programs.

Admission Requirements

1. A bachelor's degree (or its equivalent) from an accredited college or university with an overall index of 2.7 or better.
2. Mathematics course work of at least 18 credits that include Calculus I and II, with an overall index of 2.7 or better in all mathematics courses taken.
3. For Sequence 2, must hold a valid Transitional B Certificate from NYSED.
4. Submission of scores on the New York State **[Liberal Arts and Sciences Test (LAST)]** and the New York State Content Specialty Test (CST) in Mathematics.
5. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.
6. Two letters of recommendation, at least one of which is from a college or university instructor of mathematics.
7. A 500 word essay on career goals.

8. A personal interview.**Degree Requirements (5-9)**

Students must consult with a Mathematics Education advisor before starting their master's program and must plan their overall program with the advisor during their semester of attendance. Students must complete one of the two sequences outlined below

Sequence 1. (1) 33 credits of prescribed course work; (2) 3-6 credits of supervised fieldwork; (3) A comprehensive examination **OR** research project (3); and (4) Maintain B average.

Sequence 2. (1) 33 credits of prescribed course work; (2) 2 credits of supervised fieldwork; (3) A comprehensive examination **OR** research project (3); and (4) Maintain B average.

Overview of the Program (5-9)

Sequence 1 students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework.
- 9 credits in pedagogical content in mathematics education.
- 12 credits in mathematics.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Sequence 2 (Transitional B-Grades 5-9) students must successfully complete:

- 14 credits of Core Education Courses, including 2 credits of supervised fieldwork and 3 credits of special education coursework.
- 9 credits in pedagogical content in mathematics education.
- 12 credits in mathematics.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Curriculum**Sequence 1 (Grades 5-9)****36-42 credits****I. Core Education Courses: (15-18 credits)**

- ESC 501: Educational Psychology (3)
 ESC 502: Historical and Social Foundations of Education (3)
 ESC 506: Special Needs Education in Secondary Settings (3)
 ESC 532: Teaching Mathematics in Middle and High School (3)

AND

- ESC 595: Internship in Mathematics (2) **[plus]** ESC 611 (1) OR
 ESC 596: Student Teaching in Mathematics (3) **[plus]** ESC **[611]** (3).

II. Pedagogical Content in Mathematics Education (9 credits)

- ESC 740: Teaching Mathematics in Grades 7-10 (3)
 ESC 742: Research in Mathematics Education (3)
 ESC 748: Teaching Problem Solving in Mathematics in Middle & High School (3)

III. Mathematics (12 credits)

- MAT 601: Secondary Mathematics from an Advanced Standpoint (3)
 MAT 602: Introduction to Number Theory & Modern Algebra (3)
 MAT 655: Exploring Mathematics Using Technology (2)
 MAT 661: History of Mathematics (4)

IV. Culminating Experience (0-3 credits)

- ESC 706: Research in Problems of Teaching a Specialized Subject (1)
 ESC 707: Project Seminar (2) OR Comprehensive Examination (0 credit)

Sequence 2 (Transitional B Sequence for Grades 5-9) 35-38 credits

I. Core Education Courses: (14 credits)

- ESC 501: Educational Psychology (3)
 ESC 502: Historical and Social Foundations of Education (3)
 ESC 506: Special Needs Education in Secondary Settings (3)
 ESC 532: Teaching Mathematics in Middle and High School (3)
 AND
ESC 595: Internship in Classroom Teaching (1) [plus] ESC 611 (1);

II. Pedagogical Content in Mathematics Education (9 credits)

- ESC 740: Teaching Mathematics in Grades 7-10 (3)
 ESC 742: Research in Mathematics Education (3)
 ESC 748: Teaching Problem Solving in Mathematics in Middle & High School (3)

III. Mathematics (12 credits)

- MAT 601: Secondary Mathematics from an Advanced Standpoint (3)
 MAT 602: Introduction to Number Theory & Modern Algebra (3)
 MAT 655: Exploring Mathematics Using Technology (2)
 MAT 661: History of Mathematics (4)

IV. Culminating Experience (0-3 credits)

- ESC 706: Research in Problems of Teaching a Specialized Subject (1)
 ESC 707: Project Seminar (2) OR Comprehensive Examination (0 credit)

Continuation Requirements

Students must maintain a 3.0 grade point average throughout the course of study.

B. To be eligible for the Master's in Mathematics Education for Grades 7-12, candidates must fall into one of the following categories:

Sequence 3 (42- 48 credits). For liberal arts and sciences graduates who do not hold a bachelor's degree in mathematics but who have completed 15 credits in mathematics, including Statistics, Calculus I, Calculus II, Linear Algebra, and History of Mathematics, but who lack professional education coursework.

Sequence 4 (36-42 credits). For candidates who hold a bachelor degree in mathematics only, but who lack professional education coursework.

Sequence 5 (35-38 credits). For teachers who hold a bachelor's degree in mathematics AND a Transitional B Certificate in Mathematics from New York State through special CUNY and NYCDOE programs.

Admission Requirements

1. A bachelor's degree (or its equivalent) from an accredited college or university with an overall index of 2.7 or better.
2. **For Sequence 3:** Mathematics course work to include Statistics; Calculus I; Calculus II; Linear Algebra; and History of Mathematics; with an overall index of 2.7 or better in all mathematics courses taken;
For Sequence 4: Mathematics major;
For Sequence 5: Mathematics major AND NYS Transitional B Certificate.
3. Submit scores on the New York State **[Liberal Arts and Sciences Test (LAST)]** and the New York State Content Specialty Test (CST) in Mathematics.
4. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.
5. Two letters of recommendation, at least one of which is from a college or university instructor of mathematics.
6. A 500-word essay on career goals.
7. A personal interview.

Degree Requirements (Grades 7-12)

Students must consult with a Mathematics Education advisor before starting their master's program and must plan their overall program with the advisor during their first semester of attendance. Students must complete one of the three sequences outlined below:

- Sequence 3. (1) 39 credits of prescribed course work including 3 credits of special education coursework; (2) 3-6 credits of supervised

fieldwork; (3) A comprehensive examination OR research project (3); and (4) Maintain B average.

Sequence 4. (1) 33 credits of prescribed course work including 3 credits of special education coursework; (2) 3-6 credits of supervised fieldwork; (3) A comprehensive examination OR research project (3); and (4) Maintain B average.

Sequence 5. (1) 33 credits of prescribed course work including 3 credits of special education coursework; (2) 2 credits of supervised fieldwork; (3) A comprehensive examination OR research project (3); and (4) Maintain B average.

Overview of the Program

Sequence 3 (Grades 7-12) students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework.
- 12 credits in pedagogical content in mathematics education.
- 15 credits in mathematics. Students who lack History of Mathematics as a prerequisite must register for MAT 661.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Note: Students who lack full-time experience as a mathematics teacher in grades 7-12 prior to completion of the program must register for 6 credits of supervised student teaching in lieu of the 3 credits of supervised fieldwork.

Sequence 4 (Math majors who do NOT hold a NYS Transitional B Certificate, 7-12) students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework
- 12 credits in pedagogical content in mathematics education
- 9 credits in mathematics electives to be chosen in consultation with a program advisor.
- A comprehensive written examination or research project is required after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Note: Students who lack full-time experience as a mathematics teacher in grades 7-12 prior to completion of the program must register for 6 credits of supervised student teaching in lieu of the 3 credits of supervised fieldwork.

Sequence 5 (Math Majors who hold a NYS Transitional B Certificate, 7-12) students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework;
- 12 credits in pedagogical content in mathematics education.
- 9 credits in mathematics electives to be chosen in consultation with a program advisor.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Curriculum

Sequence 3 (Grades 7-12)

42- 48 credits

- I. Core Education Courses: (15-18 credits): ESC 501 (3); ESC 502 (3); ESC 506 (3); ESC 532 (3); AND ESC 595 (2) **[plus]** ESC 611 (1) OR ESC 596 (3) **[plus]** ESC **[611]** (3);
- II. Pedagogical Content in Mathematics Education (12 credits): ESC 740 (3); ESC 742 (3); ESC 748 (3); ESC 749 (3);
- III. Mathematics (15 credits): MAT 601 (3); MAT 604 (3); MAT 637 (4); MAT 655 (2); MAT 615 (3). Culminating Experience (0-3 credits) Research project or comprehensive examination. Students who elect to write a Master's thesis must concurrently enroll in ESC 706 (1) and ESC 707 (2).

Sequence 4 (Grades 7-12)

36-42 credits

- I. Core Education Courses: (15-18 credits): ESC 501 (3); ESC 502 (3); ESC 506 (3); ESC 532 (3); AND ESC 595 (2) **[plus]** ESC 611 (1) OR ESC 596 (3) **[plus]** ESC **[611]** (3);
- II. Pedagogical Content in Mathematics Education (12 credits): ESC 740 (3); ESC 742 (3); ESC 748 (3); ESC 749 (3);
- III. Mathematics (9 credits): Three graduate electives in mathematics chosen in consultation with a program advisor;
- IV. Culminating Experience (0-3 credits) Research project or comprehensive examination. Students who elect to write a Master's thesis must concurrently enroll in ESC 706 (1) and ESC 707 (2).

Sequence 5 (Transitional B Sequence for Grades 7-12)

35-38 credits

- I. Core Education Courses: (14 credits): ESC 501 (3); ESC 502 (3); ESC 506 (3); ESC 532 (3); ESC 595 (1) **[plus]** ESC 611 (1);

- II. Pedagogical Content in Mathematics Education (12 credits): ESC 740 (3); ESC 742 (3); ESC 748 (3); ESC 749 (3);
- III. Mathematics (9 credits)
Three graduate electives in mathematics chosen in consultation with a program advisor;
- IV. Culminating Experience (0-3 credits)
Research project or comprehensive examination. Students who elect to write a Master's thesis must concurrently enroll in ESC 706 (1) and ESC 707 (2).

2. To:

M.S.ED. Program in Mathematics EDUCATION MIDDLE CHILDHOOD EDUCATION (5-9) OR ADOLESCENT EDUCATION (7-12)

The graduate program for middle and high school mathematics teachers leads to a Master of Science in Education degree. Registered with the State Education Department, this program leads to both initial and professional certification to teach mathematics in grades 5-9 or 7-12, provided all other requirements have been satisfied.

- A.** To be eligible for the Master's in Mathematics Education for Grades 5-9, candidates must fall into one of the following categories:
- Sequence 1 (36-42 credits).** For liberal arts and sciences graduates who have completed 18 credits in mathematics, including Calculus I and Calculus II, but who lack professional education coursework.
- Sequence 2 (35-38 credits).** For teachers who hold a Transitional B certificate in Mathematics from New York State through special CUNY and NYCDOE programs.

Admission Requirements

1. A bachelor's degree (or its equivalent) from an accredited college or university with an overall index of 2.7 or better.
2. Mathematics course work of at least 18 credits that include Calculus I and II, with an overall index of 2.7 or better in all mathematics courses taken.
3. For Sequence 2, must hold a valid Transitional B Certificate from NYSED.
4. Submission of scores on the New York State Academic Literacy Skills Test (ALST) and the New York State Content Specialty Test (CST) in Mathematics.
5. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.
6. Two letters of recommendation, at least one of which is from a college or university instructor of mathematics.
7. A 500 word essay on career goals.
8. A personal interview.

Degree Requirements (5-9)

Students must consult with a Mathematics Education advisor before starting their master's program and must plan their overall program with the advisor during their semester of attendance. Students must complete one of the two sequences outlined below

Sequence 1. (1) 33 credits of prescribed course work; (2) 3-6 credits of supervised fieldwork; (3) A comprehensive examination **OR** research project (3); and (4) Maintain B average.

Sequence 2. (1) 33 credits of prescribed course work; (2) 2 credits of supervised fieldwork; (3) A comprehensive examination **OR** research project (3); and (4) Maintain B average.

Overview of the Program (5-9)

Sequence 1 students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework.
- 9 credits in pedagogical content in mathematics education.
- 12 credits in mathematics.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Sequence 2 (Transitional B-Grades 5-9) students must successfully complete:

- 14 credits of Core Education Courses, including 2 credits of supervised fieldwork and 3 credits of special education coursework.
- 9 credits in pedagogical content in mathematics education.
- 12 credits in mathematics.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Curriculum

Sequence 1 (Grades 5-9)

36-42 credits

I. Core Education Courses: (15-18 credits)

- ESC 501: Educational Psychology (3)
 ESC 502: Historical and Social Foundations of Education (3)
 ESC 506: Special Needs Education in Secondary Settings (3)
 ESC 532: Teaching Mathematics in Middle and High School (3)
 AND
 ESC 595: Internship in Mathematics (2) and ESC 611 (1) OR
 ESC 596: Student Teaching in Mathematics (3) and ESC 612 (3).

II. Pedagogical Content in Mathematics Education (9 credits)

- ESC 740: Teaching Mathematics in Grades 7-10 (3)
 ESC 742: Research in Mathematics Education (3)
 ESC 748: Teaching Problem Solving in Mathematics in Middle & High School (3)

III. Mathematics (12 credits)

- MAT 601: Secondary Mathematics from an Advanced Standpoint (3)
 MAT 602: Introduction to Number Theory & Modern Algebra (3)
 MAT 655: Exploring Mathematics Using Technology (2)
 MAT 661: History of Mathematics (4)

IV. Culminating Experience (0-3 credits)

- ESC 706: Research in Problems of Teaching a Specialized Subject (1)
 ESC 707: Project Seminar (2) OR Comprehensive Examination (0 credit)

Sequence 2 (Transitional B Sequence for Grades 5-9) 35-38 credits

I. Core Education Courses: (14 credits)

- ESC 501: Educational Psychology (3)
 ESC 502: Historical and Social Foundations of Education (3)
 ESC 506: Special Needs Education in Secondary Settings (3)
 ESC 532: Teaching Mathematics in Middle and High School (3)
 AND
ESC 595: Internship in Classroom Teaching (1) and ESC 611 (1);

II. Pedagogical Content in Mathematics Education (9 credits)

- ESC 740: Teaching Mathematics in Grades 7-10 (3)
 ESC 742: Research in Mathematics Education (3)
 ESC 748: Teaching Problem Solving in Mathematics in Middle & High School (3)

III. Mathematics (12 credits)

- MAT 601: Secondary Mathematics from an Advanced Standpoint (3)
 MAT 602: Introduction to Number Theory & Modern Algebra (3)
 MAT 655: Exploring Mathematics Using Technology (2)
 MAT 661: History of Mathematics (4)

IV. Culminating Experience (0-3 credits)

- ESC 706: Research in Problems of Teaching a Specialized Subject (1)
 ESC 707: Project Seminar (2) OR Comprehensive Examination (0 credit)

Continuation Requirements

Students must maintain a 3.0 grade point average throughout the course of study.

B. To be eligible for the Master's in Mathematics Education for Grades 7-12, candidates must fall into one of the following categories:

Sequence 3 (42- 48 credits). For liberal arts and sciences graduates who do not hold a bachelor's degree in mathematics but who have completed 15 credits in mathematics, including Statistics, Calculus I, Calculus II, Linear Algebra, and History of Mathematics, but who lack professional education coursework.

Sequence 4 (36-42 credits). For candidates who hold a bachelor degree in mathematics only, but who lack professional education coursework.

Sequence 5 (35-38 credits). For teachers who hold a bachelor's degree in mathematics AND a Transitional B Certificate in Mathematics from New York State through special CUNY and NYCDOE programs.

Admission Requirements

1. A bachelor's degree (or its equivalent) from an accredited college or university with an overall index of 2.7 or better.
2.
 - **For Sequence 3:** Mathematics course work to include Statistics; Calculus I; Calculus II; Linear Algebra; and History of Mathematics; with an overall index of 2.7 or better in all mathematics courses taken;
 - **For Sequence 4:** Mathematics major;
 - **For Sequence 5:** Mathematics major AND NYS Transitional B Certificate.
3. Submit scores on the New York State the New York State Academic Literacy Skills Test (ALST) and the New York State Content Specialty Test (C.S.T.) in Mathematics.
4. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.
5. Two letters of recommendation, at least one of which is from a college or university instructor of mathematics.
6. A 500-word essay on career goals.
7. A personal interview.

Degree Requirements (Grades 7-12)

Students must consult with a Mathematics Education advisor before starting their master's program and must plan their overall program with the advisor during their first semester of attendance. Students must complete one of the three sequences outlined below:

- Sequence 3. (1) 39 credits of prescribed course work including 3 credits of special education coursework; (2) 3-6 credits of supervised

fieldwork; (3) A comprehensive examination OR research project (3); and (4) Maintain B average.

Sequence 4. (1) 33 credits of prescribed course work including 3 credits of special education coursework; (2) 3-6 credits of supervised fieldwork; (3) A comprehensive examination OR research project (3); and (4) Maintain B average.

Sequence 5. (1) 33 credits of prescribed course work including 3 credits of special education coursework; (2) 2 credits of supervised fieldwork; (3) A comprehensive examination OR research project (3); and (4) Maintain B average.

Overview of the Program

Sequence 3 (Grades 7-12) students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework.
- 12 credits in pedagogical content in mathematics education.
- 15 credits in mathematics. Students who lack History of Mathematics as a prerequisite must register for MAT 661.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Note: Students who lack full-time experience as a mathematics teacher in grades 7-12 prior to completion of the program must register for 6 credits of supervised student teaching in lieu of the 3 credits of supervised fieldwork.

Sequence 4 (Math majors who do NOT hold a NYS Transitional B Certificate, 7-12) students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework;
- 12 credits in pedagogical content in mathematics education.
- 9 credits in mathematics electives to be chosen in consultation with a program advisor.
- A comprehensive written examination or research project is required after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Note: Students who lack full-time experience as a mathematics teacher in grades 7-12 prior to completion of the program must register for 6 credits of supervised student teaching in lieu of the 3 credits of supervised fieldwork.

Sequence 5 (Math Majors who hold a NYS Transitional B Certificate, 7-12) students must successfully complete:

- 15-18 credits of Core Education Courses, including 3-6 credits of supervised fieldwork and 3 credits of special education coursework;
- 12 credits in pedagogical content in mathematics education.

- 9 credits in mathematics electives to be chosen in consultation with a program advisor.
- A comprehensive written examination or research project after all course work has been completed. Students who elect to conduct a research project must enroll in 3 additional credits of research-related course work.

Curriculum

- Sequence 3 (Grades 7-12) 42- 48 credits
- I. Core Education Courses: (15-18 credits): ESC 501 (3); ESC 502 (3); ESC 506 (3); ESC 532 (3); AND ESC 595 (2) and ESC 611 (1) OR ESC 596 (3) and ESC 612 (3);
 - II. Pedagogical Content in Mathematics Education (12 credits): ESC 740 (3); ESC 742 (3); ESC 748 (3); ESC 749 (3);
 - III. Mathematics (15 credits): MAT 601 (3); MAT 604 (3); MAT 637 (4); MAT 655 (2); MAT 615 (3). Culminating Experience (0-3 credits) Research project or comprehensive examination. Students who elect to write a Master's thesis must concurrently enroll in ESC 706 (1) and ESC 707 (2).
- Sequence 4 (Grades 7-12) 36-42 credits
- I. Core Education Courses: (15-18 credits): ESC 501 (3); ESC 502 (3); ESC 506 (3); ESC 532 (3); AND ESC 595 (2) and ESC 611 (1) OR ESC 596 (3) and ESC 612 (3);
 - II. Pedagogical Content in Mathematics Education (12 credits): ESC 740 (3); ESC 742 (3); ESC 748 (3); ESC 749 (3);
 - III. Mathematics (9 credits): Three graduate electives in mathematics chosen in consultation with a program advisor;
 - IV. Culminating Experience (0-3 credits) Research project or comprehensive examination. Students who elect to write a Master's thesis must concurrently enroll in ESC 706 (1) and ESC 707 (2).
- Sequence 5 (Transitional B Sequence for Grades 7-12) 35-38 credits
- I. Core Education Courses: (14 credits): ESC 501 (3); ESC 502 (3); ESC 506 (3); ESC 532 (3); ESC 595 (1) and ESC 611 (1);
 - II. Pedagogical Content in Mathematics Education (12 credits): ESC 740 (3); ESC 742 (3); ESC 748 (3); ESC 749 (3);
 - III. Mathematics (9 credits)
Three graduate electives in mathematics chosen in consultation with a program advisor;
 - IV. Culminating Experience (0-3 credits)
Research project or comprehensive examination. Students who elect to write a Master's thesis must concurrently enroll in ESC 706 (1) and ESC 707 (2).

4. Rationale:

New York State recently replaced the Liberal Arts and Sciences Test (LAST) with the Assessment of Literacy Skills Test (ALST).

The seminar (course ESC 611) co-requisite for the Internship and the Student Teaching courses ESC 595 and ESC 596 has been split up into two courses; ESC 611 (same name) is now associated with the Internship course (ESC 595), while the new seminar ESC 612 is associated with the Student Teaching course (ESC 596).

The change that split ESC 611 into two courses, ESC 611 and ESC 612, was already approved in 2012 for all of our programs (including the Advanced Certificate Math program), but apparently not for the Math M.Ed. which is why we are submitting this change here.

These changes do not impact learning goals or objectives of the program, but they do bring the program into alignment with revisions in the NYSED teacher certification tests.

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code: **27817**

1. **Type of Change:** Admission Requirement

2. **From:**

Advanced Certificate: Mathematics Education (24-27 credits)

This program is designed for candidates who hold a bachelor's degree in mathematics and a master's degree in mathematics or in an approved mathematics-related field, and who seek New York State Certification in mathematics, grades 7-12.

Admission Requirements

Candidates wishing to enter the Mathematics Education Certificate Program must meet the following conditions as determined by the program coordinator:

1. Possess a bachelor's degree (or its equivalent) from an accredited college or university which meets New York State requirements for a general education core in the liberal arts and sciences. This degree shall include a mathematics major, with a minimum of 36 credits in mathematics.
2. Possess a master's degree in mathematics or an approved mathematics-related field.
3. Demonstrate the ability to successfully pursue graduate study by having a master's grade point average (GPA) of 3.0 or better.
4. Satisfy the content requirements for New York State initial certification.
5. Submit scores on the NYS **[LAST]** Teacher Examination and the NYS Content Specialty Test in Mathematics (CST).
6. Submit two (2) letters of recommendation, at least one of which is from a college or university instructor of mathematics.
7. Submit a 500-word essay on career goals.
8. Participate in a personal interview.
9. Meet additional departmental, divisional, and New York State requirements, if any.
10. If conditionally admitted, make up requirements starting in the first semester and finishing in no more than three consecutive semesters.

Certificate Requirements

The Certificate Program in Mathematics Education consists of 24-27 credits, as outlined below. A minimum of a B average must be maintained throughout the course of the Program. All students are to consult with an adviser in Mathematics Education before starting the Program. In order to be recommended for NYS certification at the completion of the Program, candidates must have passed the **[LAST]**, the CST in Mathematics, and the **[NYS Written Assessment of Teaching Skills (ATS-W)]**; they must also meet any additional requirements set by New York State.

Curriculum

I. Foundations of Education (9)

ESC 501 (3); ESC 502 (3) ESC 506 (3).

II. Curriculum and Instruction (12)

ESC 532 (3); ESC 740 (3) plus 6 additional credits in mathematics education to be selected in consultation with the program coordinator.

III. Practicum (3-6)

ESC 595 (2) plus ESC 611 (1) OR ESC 596 (3) plus ESC 612 (3)

3. To:

CURRICULUM CHANGE

(changes anticipated starting for May 2014 graduates)

Program Code 25803

1. Type of Change: Admission Requirement

2. FROM:

M.S.Ed. Program in English Education

This program is designed for students seeking a master's degree in English Education, grades 7-12. Upon successful completion of additional certification requirements, including specified teacher examinations, candidates will also be eligible to receive both Initial and Professional Certification to teach English in New York State in Grades 7-12.

English Education Admission Requirements

- Possess a bachelor's degree in English or its equivalent from an accredited college or university.
- Have earned a minimum cumulative index of 3.0 in the undergraduate record.
- Submit scores on the New York State **[Liberal Arts and Sciences Test (LAST)]**
- If conditionally admitted, make up undergraduate coursework starting in the first semester and finishing in no more than three consecutive semesters.
- Submit a 500-word essay outlining career goals.
- Submit two to three letters of recommendation.
- Participate in an individual interview.
- For Sequence 2 only, possess Transitional B certificate in Teaching English grades 7-12.

English Education Degree Requirements

All students will complete one of the following sequences: Sequence 1 (36-45 credits) or Sequence 2 (33 credits). All courses must be selected in consultation with, and with the approval of, an adviser in English Education. Application for this degree include the following:

Sequence 1 (36-45 credits)

- Candidates with an undergraduate degree in English or the equivalent who lack education courses and who seek initial certification in English Education grades 7-12.
- Core Education (18-21 credits): ESC 501 (3), ESC 502 (3), ESC 529 (3), ESC 506 or the equivalent (3), ESC 522 (3), and for interns, ESC 595 (2) and ESC 611 (1) or, for student teachers, ESC 596 (3) and ESC 612 (3).

- Teaching of English (6-9 credits): Selected from: ESC 720 (3), ESC 721 (3), ESC 722 (3), ESC 723 (3), ESC 724 (3), ESC 730 (3), or ESC 772 (3).
- English Electives (9-12 credits): Consult with an adviser in the English Education program for the appropriate course(s) to satisfy this requirement.
- Master's Project (6 credits): ESC 708 (3), ESC 788 (3). Culminates in an approved curriculum project.

Sequence 2 (36 credits)

- Teachers who hold a valid Transitional B certificate in English Education grades 7-12 from New York State.
- Core Education (15 credits): ESC 501 (3), ESC 529 (3), ESC 506 or the equivalent (3), ESC 522 (3), ESC 595 (2), and ESC 611 (1).
- Teaching of English (9 credits): Selected from: ESC 720 (3), ESC 721 (3), ESC 722 (3), ESC 723 (3), ESC 724 (3), ESC 730 (3), or ESC 772 (3).
- English Electives (9 credits): Consult with an adviser in the English Education program for the appropriate course(s) to satisfy this requirement.
- Master's Project (3 credits): ESC 708 (3). Culminates in an approved curriculum project.

3. TO:

M.S.Ed. Program in English Education

COMMITTEE ON GRADUATE STUDIES

1. Type of Change: Proposed amendment to the Lehman College Senate bylaws

2. From:

Section 10. Committee on Graduate Studies

a) Membership:

Thirteen members as follows: six elected faculty; six elected students (at least two of whom are graduate students); and one administrator

b) Functions:

- i. Evaluates and reviews graduate programs and recommends additions, revisions, terminations, and/or other modifications as required;
- ii. Considers proposed changes in the existing graduate curriculum and programs;
- iii. Reviews and recommends policies and procedures regarding: graduate admission, readmission, and retention;
- iv. Maintains the stipulated principle that no graduate course shall be dropped from the curriculum of the college without prior reference to the Committee and the relevant department as required by the Bylaws of the CUNY Board of Trustees.

3. To:

Section 10. Committee on Graduate Studies

a) Membership:

Thirteen members as follows: six elected faculty; six elected students (at least two of whom are graduate students); and one administrator

b) Functions:

- i. Evaluates and reviews graduate programs and recommends additions, revisions, terminations, and/or other modifications as required;
- ii. Considers proposed changes in the existing graduate curriculum and programs;
- iii. Reviews and recommends policies and procedures regarding: graduate admission, readmission, and retention;
- iv. Maintains the stipulated principle that no graduate course shall be dropped from the curriculum of the college without prior reference to the Committee and

the relevant department as required by the Bylaws of the CUNY Board of Trustees.

v. Hears appeals from individual students, taking care to safeguard the confidentiality of individual cases.

4. Rationale:

The proposed amendment will allow the graduate studies committee to form a subcommittee to review and make recommendations for handling graduate student appeals.

5. Date of Graduate Studies Committee approval: November 13, 2013

Date of Governance Committee Approval: November 25, 2013

December 10, 2013

Chancellor William Kelly:
City University of New York
205 East 42nd Street
New York, NY 10017

Dear Chancellor Kelly:

I am writing to you at the unanimous request of the Lehman College Senate Governance Committee, of which I am the Chair. As you may know, the Lehman College Governance documents empower the Lehman College Senate, comprised of faculty, students, and administrators, to formulate policy, make policy recommendations, and review the implementation of policy concerning Academic Affairs, including the development of curricula and degree requirements, subject to the authority and the Bylaws of the Board of Trustees.

Under that authority, the Lehman College Senate, in 1984, instituted the requirement that students complete a minor or a secondary area of concentration in order to graduate. That requirement remained in effect through the summer of 2013, when, we have been told, the Vice Chancellor for Academic Affairs informed Lehman that its requirement of a minor conflicted with the CUNY Board of Trustees Resolution “Creating an Efficient Transfer System,” commonly referred to as Pathways. According to the Vice Chancellor, Lehman’s requirement of a minor violated the provision of Pathways which required that “any course or disciplinary area that is required of all students and is not specifically required for a student’s major must fall within the Common Core or College-Option courses.”

Subsequently, the Lehman College Vice President for Enrollment Management and Associate Provost informed the Lehman College community on September 23, 2013, that “effective Fall 2013, as a result of the CUNY Board of Trustees’ Resolution on ‘Creating an Effective Transfer System,’ Lehman College will **no longer require minors for graduation**” (emphasis in the original).

The Lehman College Senate Governance Committee believes that the removal of the minor requirement is a misinterpretation and misapplication of the Pathways resolution. Because Lehman students choose their minors from among many different subjects and areas of study, including many multi-disciplinary minors, the minor is neither a specific course nor disciplinary area required of all students, and therefore does not violate the policies set forth in the Pathways resolution.

Therefore, we ask that the Lehman College Senate be allowed to determine for itself whether a minor or secondary area of concentration should be required for Lehman students to graduate.

Sincerely,

Duane Tananbaum
Chair, Lehman College Senate Governance Committee

Cc: Lehman College President Ricardo Fernández
Lehman College Provost Anny Morrobel-Sosa
CUNY Executive Vice Chancellor Alexandra Logue
UFS Chair Terrence Martel
UFS Executive Director William Phipps

December 11, 2013 Senate report

The Undergraduate Curriculum brings proposals from the following Departments for discussion and a vote.

- [Center for Human Rights and Peace Studies](#)
- [Department of Biological Sciences](#)
- [Department of Environmental, Geographic and Geological Sciences](#)
- [Department of Health Sciences](#)
- [Undergraduate Curriculum Committee - LEH 4100, Experimental Course](#)
- [Undergraduate Curriculum Committee - Liberal Arts & Sciences Course Listing](#)

Our next meeting will be on Feb. 5, @ 12:30 in CA 263.

LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK

DEPARTMENT OF BIOLOGICAL SCIENCES

CURRICULUM CHANGE

1. **Type of change:** New experimental course

2. **Course Description:** **BIO 4150: Medical Microbiology.** 6 hours (2 lecture, 4 lab), 4 credits. Disease mechanism, antibiotic and antiviral susceptibility and resistance, and epidemiology of primarily human diseases caused by bacteria, viruses and fungi as well as by those caused by emerging diseases. PREREQ: BIO 331

2. **Course Description:** **BIO 4150: Medical Microbiology.** 6 hours (2 lecture, 4 lab), 4 credits. Disease mechanism, antibiotic and antiviral susceptibility and resistance, and epidemiology of primarily human diseases caused by bacteria, viruses and fungi as well as by those caused by emerging diseases. PREREQ: BIO 331

3. **Rationale:** There is a significant demand for these types of courses among the biology majors who are looking for careers in the health field.

4. **Learning Objectives (By the end of the course students will be expected to):**
 - 1) Identify major infectious disease organisms
 - 2) Differentiate Gram positive from Gram negative organisms
 - 3) Delineate the disease(s) they cause
 - 4) Discuss antibiotic and anti-viral therapies and discuss their limitations
 - 5) Discuss mechanisms that pathogens use to become resistant to antibiotics and antiviral drugs
 - 6) **Identify** How diseases are spread in the population
 - 7) Discuss the mechanisms of disease at a molecular level

5. **Date of Departmental Approval:** September 28, 2013.

LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK

DEPARTMENT OF EARTH, ENVIRONMENTAL AND GEOSPATIAL SCIENCES

CURRICULUM CHANGE

1. Type of Change: Change in Degree Requirements

Hegis #: 191400

Program Code: 34028

2. From: MAJOR IN Earth Science, B.A., [28-29 CREDITS]

This program is recommended to teacher education students. The required credits are distributed as follows:

[16 credits] in required courses:

- GEO 101 Dynamic Earth (3 hours, 3 credits)
- GEO 102 Dynamic Earth Laboratory (2 hours, 1 credit)
- GEO 167 Earth Evolution (3 hours, 3 credits)
- GEO 168 Earth Evolution Laboratory (2 hours, 1 credit)
- GEO 228 Weather and Climate (3 hours, 3 credits)
- GEO 229 Weather and Climate Laboratory (2 hours, 1 credits)
- GEO 245 Earth Materials (5 hours, 4 credits)

[8 credits] in to be chosen from the following courses:

- GEO 236 Environmental Geology (4 credits)
- GEO 340 Natural Hazards and Disasters (3 hours, 3 credits) and GEO 341 Natural Hazards and Disasters (2 hours, 1 credit)
- GEO 345 Environmental Hydrology (4 credits)
- GEO 350 Topics in Regional Geology and Mapping Techniques (4 credits)
- GEO 448 Plate Tectonics (4 credits)
- [AST 136 Astronomy of the Solar System (5 hours, 4 credits)]
(Other courses may be substituted for elective requirements with department permission.)

[4-5 credits in a related science or mathematics to be chosen from the following:

- BIO 167 Principals of Biology (4 credits)
- CHE 166 General Chemistry I (3 credits) and CHE 167 General Chemistry Laboratory I (2 credits)
- MAT 123 A Problem-Solving Approach to Mathematics (4 credits) or MAT 132 Introduction to Statistics (4 credits)
- PHY 166 General Physics I (5 credits)

(Other courses may be substituted for related science or mathematics requirements with department permission.)]

3. To: MAJOR IN EARTH SCIENCE, B.A., 30 CREDITS

This program is recommended to teacher education students. The required credits are distributed as follows:

26 credits in required courses:

- GEO 101 Dynamic Earth (3 hours, 3 credits)
- GEO 102 Dynamic Earth Laboratory (2 hours, 1 credit)
- GEO 167 Earth Evolution (3 hours, 3 credits)
- GEO 168 Earth Evolution Laboratory (2 hours, 1 credit)
- GEO 228 Weather and Climate (3 hours, 3 credits)
- GEO 229 Weather and Climate Laboratory (2 hours, 1 credits)
- GEO 245 Earth Materials (5 hours, 4 credits)
- GEO 345 Environmental Hydrology (5 hours, 4 credits)
- GEO 4500 Topics in Earth Science (2 hours, 2 credits)
- AST 117 Astronomy of Stellar Systems (5 hours, 4 credits)

4 credits in to be chosen from the following courses:

- GEO 236 Environmental Geology (5 hours, 4 credits)
 - GEO 340 Natural Hazards and Disasters (3 hours, 3 credits) and GEO 341 Natural Hazards and Disasters (2 hours, 1 credit)
 - GEO 3700 Regional Field Geology and Mapping Techniques (5 hours, 4 credits)
 - GEO 448 Plate Tectonics (5 hours, 4 credits)
 - GEO 490 Honors Geology (5 hours, 4 credits)
- (Other courses may be substituted with department permission.)

4. Rationale:

The B.A. in Earth Science is recommended to teacher education students. The New York State Education Department (NYSED) teacher certification requirements have recently been revised. The new requirements for teacher certification in Earth Science include 30 content core credit hours. The proposed changes to the program are designed to allow students to meet this requirement upon completion of the degree. The required course list has been revised to align with the recently adopted “Next Generation Standards” for middle and high school grades that are slated for implementation over the coming 5 years.

The changes in the requirements for the major may be summarized as follows:

Course dropped as requirement:

4-5 credits in a related science or mathematics to be chosen from the following:

- BIO 167 Principals of Biology (4 credits)
- CHE 166 General Chemistry I (3 credits) and CHE 167 General Chemistry Laboratory I (2 credits)
- MAT 123 A Problem-Solving Approach to Mathematics (4 credits) or MAT 132 Introduction to Statistics (4 credits)
- PHY 166 General Physics I (5 credits)

Rationale: The NYSED 30-credit requirement in the core area does not permit the inclusion of related science and mathematics courses in the 30-credit degree requirement.

Course added as requirement:

- GEO 4500 Topics in Earth Science (2 hours, 2 credits)

Rationale: Addition of this course allows students to make advanced studies in chosen topics and/or to pursue focused field investigations.

Courses moved from the list of “courses to be chosen from” to the list of “required courses”:

- GEO 345 Environmental Hydrology (5 hours, 4 credits)
- AST 117 Astronomy of Stellar Systems (5 hours, 4 credits)

Rationale: The required course list has been revised to align with the recently adopted “Next Generation Standards” for middle and high school grades that are slated for implementation over the coming 5 years.

Courses added to the list of “courses to be chosen from”:

- GEO 490 Honors Geology (5 hours, 4 credits)

Rationale: This course provides an option to students interested in mentored research and/or participation in approved program offered at our partner cultural and science institutions.

5. Effect outside Department: None

6. Date of Department Approval: 29 October 2013

SCIENCES
CURRICULUM CHANGE

1. **Type of Change:** Change in Degree Requirements
Hegis #: 191400; Related Program Code: 34028

2. **From:** **CERTIFICATE IN EARTH SCIENCE, [24 CREDITS]**

The Certificate in Earth Science is structured to provide a strong foundation in Earth science content. The program is intended for certified teachers of other science areas who plan to obtain a second certification in Earth Science as well as holders BA or BS degrees who seek a foundation in Earth science before applying to a Masters of Education program.

[20 Credits] in Required Courses

GEO 167 Earth Evolution (3 credits)
GEO 168 Earth Evolution Lab (1 credits)
GEO 228 Weather and Climate (3 credits)
GEO 229 Weather and Climate Lab (1 credits)
GEO 245 Earth Materials (4 credits)
GEO 301 Earth Science for Educators (4 credits)
AST 117 Astronomy of Stellar Systems (4 credits)

4 Credits to be chosen from the following:

GEO 236 Environmental Geology (4 credits)
GEO 340 Natural Hazards and Disasters (3 credits) and GEO 341
Natural Hazards and Disasters (1 credit)
GEO 345 Environmental Hydrology (4 credits)
GEO 350 Topics in Regional Geology and Mapping Techniques (4
credits)
GEO 448 Plate Tectonics (4 credits)

(Other courses may be substituted with department permission.)]

3. **To:** **CERTIFICATE IN EARTH SCIENCE, 30 CREDITS**

The Certificate in Earth Science is structured to provide a strong foundation in Earth science content. The program is intended for certified teachers of other science areas who plan to obtain a second certification in Earth Science as well as holders BA or BS degrees who seek a foundation in Earth science before applying to a Masters of Education program.

26 Credits in Required Courses

GEO 167 Earth Evolution (3 credits)
 GEO 168 Earth Evolution Lab (2 hours, 1 credits)
 GEO 228 Weather and Climate (3 hours, 3 credits)
 GEO 229 Weather and Climate Lab (2 hours, 1 credits)
 GEO 245 Earth Materials (5 hours, 4 credits)
 GEO 301 Earth Science for Educators (5 hours, 4 credits)
GEO 345 Environmental Hydrology (5 hours, 4 credits)

6. Date of Department Approval: 29 October 2013

LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK

DEPARTMENT OF EARTH, ENVIRONMENTAL AND GEOSPATIAL SCIENCES
CURRICULUM CHANGE

1. **Type of Change:** New Course.
2. **Course Description:** GEO 4500 Topics in Earth Science. 2 hours, 2 credits.
Advanced study in selected Earth science topics or field problems.
3. **Rationale:** This course will serve as a supervised advanced study project in the BA Earth Science and the Certificate in Earth Science programs. It will provide the opportunity for students to pursue a selected topic or field problem that is of particular interest to them while familiarizing them with the professional literature, the process and structure of scientific investigation in Earth science, and communication of scientific findings.
4. **Learning Objectives:**
Students successfully completing the course will:
 - Demonstrate an advanced understanding of the selected topic or field problem.
 - Effectively retrieve information from the professional literature
 - Frame questions that form the foundation of an investigation
 - Pursue a scientific investigation either through analysis of published data and literature review or acquisition and analysis of field data.
 - Effectively communicate scientific findings in the form of a paper or a field report
5. **Date of Departmental Approval:** 29 October 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

**DEPARTMENT OF EARTH, ENVIRONMENTAL AND GEOSPATIAL
SCIENCES**

CURRICULUM CHANGE

1. **Type of change:** Change in Title, Number, Hours and Description
2. **From:**
[**GEO 350 Topics in regional geology and mapping techniques.** 4 credits, 3 hours lecture, 2 hours lab/field. Geologic methods of field data investigation and analysis using Geographic Information Systems (GIS) and Global Positioning System (GPS) within the context of the local (regional) geological settings.]
3. **To:**
GEO 370 Regional Field Geology and Mapping Techniques. 4 credits, 2 hours lecture, 8 hours field. Geologic field methods, data acquisition and analysis within the context of a regional geological setting. Typically offered during summer session, may require residence at field camp.
4. **Rationale:**
The revised description is more concise and avoids the limitations that all data analysis is to be done in GIS and all mapping techniques are to use GPS. The revised distribution of hours is more appropriate of a fieldwork course. The revised title better reflects the course content.
5. **Date of Departmental Approval:** 29 October 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

DEPARTMENT OF EARTH, ENVIRONMENTAL & GEOSPATIAL SCIENCES

CURRICULUM CHANGE

1. **Type of Change: Change in Prerequisite**

An Earth system science approach to the geosphere, hydrosphere, biosphere, atmosphere and the chemical and physical processes that connect them, including the rock, water, and tectonic cycles. Optional field observations. [PREREQ: Completion of the College requirement in mathematics.] NOTE: GEO 102 is required for majors.
 3. **To: GEO 101 Dynamic Earth.** 3 hours, 3 credits. An Earth system science approach to the geosphere, hydrosphere, biosphere, atmosphere and the chemical and physical processes that connect them, including the rock, water, and tectonic cycles. Optional field observations. NOTE: GEO 102 is required for majors.
 4. **Rationale:** Knowledge of college-level mathematics is not required for this course.
5. **Date of departmental approval: 26 September 2013**

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

DEPARTMENT OF EARTH, ENVIRONMENTAL & GEOSPATIAL SCIENCES

CURRICULUM CHANGE

1. **Type of Change: Change in Prerequisite**
2. **From: GEO 167 Earth Evolution.** 3 hours, 3 credits. Stages in the history of the Earth system. Fundamental geologic concepts, origin of the Earth, the ancient seas and their changing shorelines, the continents and mountains and the evolution of life on Earth as seen in the fossil record. [PREREQ: Completion of the College requirement in mathematics.] NOTE: GEO 168 is required for majors.
3. **To: GEO 167 Earth Evolution.** 3 hours, 3 credits. Stages in the history of the Earth system. Fundamental geologic concepts, origin of the Earth, the ancient seas and their changing shorelines, the continents and mountains and the evolution of life on Earth as seen in the fossil record. NOTE: GEO 168 is required for majors.
4. **Rationale:** Knowledge of college-level mathematics is not required for this course.
5. **Date of departmental approval: 26 September 2013**

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

DEPARTMENT OF EARTH, ENVIRONMENTAL & GEOSPATIAL SCIENCES

CURRICULUM CHANGE

1. **Type of Change: Change in Title, Credits, Hours, and Description**
 2. **From: [GEO 100 Marine Science. 5 hours (3, lecture; 2, lab), 4 credits. A survey of the geological, physical, chemical, and biological processes that shape the oceans.]**
 3. **To: GEO 100 OCEANS. 3 hours, 3 credits. The physical, chemical, and biological components of the integrated sea and ocean system, its role in climate, biologic evolution, and human society.**
 4. **Rationale: The proposed change updates the existing GEO 100 Marine Science bringing it in line with the current paradigm of Earth systems science by integrating our knowledge of the oceans with climate change and their importance to human society.**
5. **Date of departmental approval: 15 October 2013**

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

DEPARTMENT OF EARTH, ENVIRONMENTAL, & GEOSPATIAL SCIENCES

CURRICULUM CHANGE

1. **Type of change:** New Course
2. **Course Description:** **GEO 1500 Geology in Art and Society.** 3 credits, 3 hours.
Historical review of geological science through selected topics with a focus on the relationship between geology, the arts, and the development of human society.
3. **Rationale:** The history of geological science is intertwined with mythology, megalithic culture, arts, geographic explorations, geopolitics, and economics. The art and social issues throughout human history were based on mineral resources and materials. Even now, demand for key mineral resources define issues of domestic and international politics. Progressive depletion of resources and environmental changes is highlighting the impact that humans have on Earth's history.
4. **Learning Objectives (By the end of the course students will be expected to):**
 - Appreciate the role of geologic science in the development of early civilizations
 - Understand of the role of geology in modern society
 - Trace the historical development of geoscience and its relationship to societal change
 - Master key geologic concepts and terminology
 - Understand current state of geoscience and job opportunities it offers
5. **Date of Departmental Approval:** 15 October 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

**DEPARTMENT OF EARTH, ENVIRONMENTAL, AND GEOSPATIAL
SCIENCES**

CURRICULUM CHANGE

1. Type of change: New Course

2. Course Description: GEP 3750: Data Acquisition and Integration Methods for GIS Analysis

4 hours, 3 credits (2 hours lecture, 2 hours lab). The techniques and science of data acquisition and creation for spatial analysis in a geographic information system (GIS); includes field data collection. Students will be instructed in the use GPS devices, mobile GIS, workstation GIS, as well as data from other sources including remotely sensed data. Prerequisite: GEP 204 or GEP 205

3. Rationale: This course is designed in order to gain practical experience in data creation and field techniques as well as information integration and analysis. A thorough understanding of mapping, spatial analysis, remote sensing and new computer-aided geo-statistical methodologies is critical within many scientific disciplines.

4. Learning Objectives (By the end of the course students will be expected to):

- Develop and enhance computer literacy through work with mobile GIS, workstation GIS, GPS and remote sensing data;
- Conduct field surveys and understand relationship between analytical goal and survey design;
- Utilize web-based data depositories and portals;
- Integrate geospatial data with GIS technology.

Department of Health Sciences

Curriculum Change

Hegis #: 2199.00

Program Code: 34565

1. **Type of Change:** *prerequisites*

2. **From:**

Therapeutic Recreation, B.S. (52 Credit Major)

The required courses and credits are distributed as follows (52 credits):

12 *In Recreation Education:*

REC 300 (3), 320 (3), 387 (3), 401 (3)

[12] *In Therapeutic Recreation:*

REC 321 (3), 324 (3), 325 (3), 421 (3), 425 (3)

[6] *Selected from* REC, REH, EXS, DFN, HEA, HSA and/or HSD courses

9 *In Recreation Internship:* REC 370 (4), 471 (5)

13 Credits in Supportive coursework:

3 HIN 268 (3)

4 BIO 181 (4)

6 PSY 166 (3) and PSY 234 (3)

3. **To:**

Therapeutic Recreation, B.S. (52 Credit Major)

The required courses and credits are distributed as follows (52 credits):

12 *In Recreation Education:*

REC 300 (3), 320 (3), 387 (3), 401 (3)

15 *In Therapeutic Recreation:*

REC_321 (3), 324 (3), 325 (3), 421 (3), 425 (3)

3 *Selected from* REC, REH, EXS, DFN, HEA, HSA and/or HSD courses

9 *In Recreation Internship:* REC 370 (4), 471 (5)

13 Credits in Supportive coursework:

- 3 HIN 268 (3)
- 4 BIO 181 (4)
- 6 PSY 166 (3) and PSY 234 (3)

4. Rationale:

National certification requirements in therapeutic recreation mandate 15 credits in therapeutic recreation courses as of 2013 are needed in order to be eligible to take the national certification exam; therefore the number of required therapeutic recreation courses has been increased to 15 and the major elective has been reduced from 6 to 3.

5. Date of departmental approval: Oct. 16, 2013

Rationale says it all: increased therapeutic rec credits to 15 and reduced electives from 6 to 3

Curriculum Change

1. **Type of Change:** *Change in Prerequisite*
2. **From:** REC 370: Recreation Internship.
180 hours plus conferences, 4 credits. Supervised placement in a recreation or leisure service agency in order to develop knowledge of professional practice through on-site experience, with emphasis on leadership and programming. PREREQ: [REC 300, 320, and 321].
3. **To:** REC 370: Recreation Internship.
180 hours plus conferences, 4 credits. Supervised placement in a recreation or leisure service agency in order to develop knowledge of professional practice through on-site experience, with emphasis on leadership and programming. PREREQ: REC 300, 320, and 321 and either REC 324 or 325 and 421, or 6 cr. from REC 360, 361, 422, 401.
4. **Rationale:**
The change in prerequisite insures that students are entering their internship with sufficient background to successfully complete the course.
5. **Date of departmental approval:** Oct. 16, 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

Department of Health Sciences

Curriculum Change

1. **Type of Change:** *Change in degree requirements*

2. **From:** Recreation Education, B.S. (40 Credit Major)

The required courses and credits are distributed as follows (40 credits):

15 *In Recreation Education:* REC 300 (3), 320 (3), 321 (3), 387 (3), and 401 (3)

9 *In one of three options:* either Therapeutic Recreation: REC 325 (3), 421 (3), and 425 (3); or Administration: REC 360 (3), 361 (3), and 422 (3); or Exercise and Sport: EXS 265 (3), 264 (3), and 304 (3)

8 *Selected from:* REC, REH, EXS, DNC, DFN, HEA, HSA, and/or HSD courses with Departmental approval

8 *In Recreation Internship:* REC 370 (4) and REC 470 (4)

[Recommended Electives for Recreation Education

ART 107 (2); DNC 101 (1), 106 (1), and 201(1); ECE 301 (4); ESC (ECE) 300 (3); *EDS 390(3); SOC 229 (3), 231 (3), and SOC (NUR) 240 (3); PSY 232 (3), 234 (3), 335 (3), and 339 (3).]

3. **To:** Recreation Education, B.S. (40 Credit Major)

The required courses and credits are distributed as follows (40 credits):

15 *In Recreation Education:* REC 300 (3), 320 (3), 321 (3), 387 (3), and 401 (3)

9 *In one of three options:* either Therapeutic Recreation: REC 325 (3), 421 (3), and 425 (3); or Administration: REC 360 (3), 361 (3), and 422 (3); or Exercise and Sport: EXS 265 (3), 264 (3), and 304 (3)

8 *Selected from:* REC, REH, EXS, DNC, DFN, HEA, HSA, and/or HSD courses with Departmental approval

8 *In Recreation Internship:* REC 370 (4) and REC 470 (4)

4. **Rationale:**

The recommended electives are being deleted because their inclusion here led to confusion on the part of the students and it is more useful to discuss appropriate electives during major advising.

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

CENTER FOR HUMAN RIGHTS AND PEACE STUDIES

CURRICULUM CHANGE

1. **Type of Change:** New Interdisciplinary Minor
2. **Program Description:** 15-Credit Minor in Human Rights and Peace Studies

The Minor in Human Rights and Peace Studies provides students with a unique, holistic, and interdisciplinary approach to the protection of fundamental human entitlements and the development of peaceful social relations. It is a key curricular endeavor of the Center for Human Rights and Peace Studies at Lehman College. Although the Minor is particularly valuable for those majoring in fields related to society and the law, such as Political Science, Philosophy, Sociology, Anthropology, and History, it also complements various professional programs dealing with fundamental human interests and cross-border interactions.

Degree Requirements

Students will complete the Minor by choosing five of the courses listed below, all of which are substantially concerned with human rights and/or peace studies, for a total of 15 credits. All students must take the introductory course, HRP(PHI)(POL) 218. At least three of the four electives must be in courses at the 300-level or higher.

Core (3 credits):

HRP (PHI) (POL) 218	Fundamentals of Human Rights and Peace
---------------------	--

Electives (12 credits):

PHI 173	Justice and Society
AAS (PHI) 305	African Philosophical Thought
DST (PHI) 336	Disability, Ethics, and the Body
POL (PHI) 369	Global Justice
ANT (LAC) 238	Ethnography of Latin America
ANT (HRP) 3500	Anthropology and Human Rights
SOC 226	Social Movements
SOC 309	Social Inequality
LAC (ANT) (WST) 210	Women in Latin America
LAC (LPR) 312	Latino Migrations
HIU 318	History of American Foreign Relations
HIU (AAS) 330	The Civil Rights Movement

HIW 348	Europe and the Non-Western World
POL 230	Immigration and Citizenship
POL 315	The Politics of American Poverty
POL 339	Human Rights
POL 343	International and Regional Organizations
POL 344	International Law
POL 347	The Law of Diplomacy, Treaties, and War
POL 348	International Conflict and Conflict Resolution
POL 367	Political Economy of Development
POL 368	Global Environmental Politics
POL 4720	Model United Nations
HRP 3520	Special Topics in Human Rights and Peace Studies
HRP 4730	Internship in Human Rights and Peace Studies

3. Rationale: The Center for Human Rights and Peace Studies advances social justice and human dignity in an interdisciplinary fashion through the active involvement of faculty, students, and community in research and teaching. The new Minor in Human Rights and Peace Studies is an essential component of the CHRPS mission of educating today's young people about the human rights and security protections that are among the political cornerstones of our contemporary, interdependent world: understanding their philosophical underpinnings, historical development, cultural interpretations, legal status, and political applications to domestic and global issues is an increasingly important competency for an educated citizenry. The Minor offers students the opportunity to explore human rights and security concerns through a wide array of disciplinary lenses, thereby enabling them to identify and analyze contemporary social issues in informed and empowering ways. The Director and Steering Committee of the new minor is as follows:

Director: Victoria Sanford (Professor, Anthropology)

Steering Committee: Julissa Alvarez Diaz (Administrative Representative), Dziffa Ametam (Student Representative), Richard Blot (Associate Professor, Journalism, Communication, and Theatre), Michael Buckley (Assistant Professor, Philosophy), Alba Cela (Student Representative), Alyshia Galvez (Associate Professor, Latin American, Latino and Puerto Rican Studies), Joy Greenberg (Assistant Professor, Social Work), Alfonso Gonzales (Assistant Professor, Political Science), Yeara Milton (Administrative Representative), Duane Tananbaum (Associate Professor, History), Christa Salamandra (Associate Professor, Anthropology), Carolyn Williams (Professor, CUNY Graduate Center)

The curriculum of the Minor in Human Rights and Peace Studies is comprised almost exclusively of currently existing courses, primarily in the following departments: Philosophy; Anthropology; Sociology; Latin American, Latino, and Puerto Rican Studies;

History; and Political Science. Several of the courses are cross-listed among these departments and/or with African and African American Studies, Disability Studies, Women's Studies, and of course the Center for Human Rights and Peace Studies, where the Minor is housed. The Center expects the number of cross-listed electives available to students in the Minor to grow as it develops affiliations with faculty in these and other departments.

5. **Date of Steering Committee Approval:** May 8, 2013
Date of Center for Human Rights and Peace Studies Approval: May 8, 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

**CENTER FOR HUMAN RIGHTS AND PEACE STUDIES
DEPARTMENT OF ANTHROPOLOGY**

CURRICULUM CHANGE

1. **Type of Change:** New course

2. **Course Description:** HRP (ANT) 3500: **Anthropology and Human Rights.** 3 hours, 3 credits. History, development, and application of concepts and theories of anthropology to current issues in human rights. Examination of cross-cultural research on “What are rights?” Cultural relativism, the right to cultural difference, and the quest for universal human rights. Anthropological contributions to human rights theory and the dilemmas of practice in a globalized world.

3. **Rationale:** The new Minor in Human Rights and Peace Studies is an essential component of the CHRPS mission of educating today’s young people about the human rights and security protections that are among the political cornerstones of our contemporary, interdependent world: understanding their philosophical underpinnings, historical development, cultural interpretations, legal status, and political applications to domestic and global issues is an increasingly important competency for an educated citizenry. HRP (ANT) 3500 (Anthropology and Human Rights) offers students the unique opportunity to explore human rights and security concerns from within the particular discipline of Anthropology, preparing them to identify and analyze contemporary social issues in a variety of global settings in informed and nuanced ways.

4. **Learning Objectives:**

- Understand the history of opposition between anthropology and human rights, as well as the changes that led to the adoption of the Declaration on Anthropology and Human Rights by the American Anthropological Association in 1999.
- Analyze local and global issues in terms of anthropological concepts and theories “whenever human difference is made the basis for a denial of basic human rights, where ‘human’ is understood in its full range of cultural, social, linguistic, psychological, and biological senses” (AAA, Declaration on Anthropology and Human Rights).
- Examine human needs and human capabilities in the light of ethnographic works from various regions of the world with particular attention to indigenous peoples’ struggles for human rights.

5. **Date of Steering Committee Approval:** May 8, 2013
Date of Center for Human Rights and Peace Studies Approval: May 8, 2013
Date of Anthropology Department Approval: July 2, 2013

CURRICULUM CHANGE

1. **Type of Change:** New course
2. **Course Description:** HRP 3520: **Special Topics in Human Rights and Peace Studies.** 3 hours, 3 credits. Various topics in human rights and security protections.
3. **Rationale:** The new Minor in Human Rights and Peace Studies is an essential component of the CHRPS mission of educating today's young people about the human rights and security protections that are among the political cornerstones of our contemporary, interdependent world: understanding their philosophical underpinnings, historical development, cultural interpretations, legal status, and political applications to domestic and global issues is an increasingly important competency for an educated citizenry. HRP 3520 (Special Topics in Human Rights and Peace Studies) provides a way for faculty compelled by CHRPS's work to offer relevant courses from disciplines and on topics not covered by the Minor's list of courses, facilitating the development of the HRPS Minor as a genuinely interdisciplinary Minor at Lehman College.
4. **Learning Objectives:**
 - Understand historical developments and/or contemporary issues in human rights and human security protections through the lens of a specific disciplinary topic.
 - Demonstrate critical thinking skills by reading, analyzing, and writing about peace and human rights initiatives.
 - Analyze a particular social or anthropological issue in terms of fundamental concept of human security
5. **Date of Steering Committee Approval:** May 8, 2013
Date of Center for Human Rights and Peace Studies Approval: May 8, 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

CENTER FOR HUMAN RIGHTS AND PEACE STUDIES

CURRICULUM CHANGE

1. **Type of Change:** New course

2. **Course Description:** **HRP 4730: Internship in Human Rights and Peace Studies.** 1 semester, 3 credits (minimum of 8 field hours/week and one hour weekly meeting with a faculty member). A supervised internship enabling students to acquire professional experience in areas related to Human Rights or Peace Studies.

PREREQ: Permission from the CfHRPS Executive Director.

Note: Students are responsible for locating and arranging the internship but are encouraged to first consult with the mentoring faculty on suitable organizations.

3. **Rationale:** The new Minor in Human Rights and Peace Studies is an essential component of the CHRPS mission of educating today's young people about the human rights and security protections that are among the political cornerstones of our contemporary, interdependent world: understanding their philosophical underpinnings, historical development, cultural interpretations, legal status, and political applications to domestic and global issues is an increasingly important competency for an educated citizenry. HRP 4730 (Internship in Human Rights and Peace Studies) provides students with the opportunity to earn academic credit for real-world experience through internships with various governmental and non-governmental agencies (such as Amnesty International or Human Rights Watch) committed to the field of human rights and security protections.

4. **Learning Objectives:**

- Gain hands-on experience and disciplinary/historical skills and perspectives by collaborating with real-world human-rights and peace practitioners.
- Develop both critical skills by participating in observations, report-writing, and data analysis with practitioners in the peace and human rights fields.
- Demonstrate an ability to work productively on local or global projects involving human security.

5. **Date of Steering Committee Approval:** May 8, 2013

Date of Center for Human Rights and Peace Studies Approval: May 8, 2013

LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK

CENTER FOR HUMAN RIGHTS AND PEACE STUDIES
DEPARTMENT OF PHILOSOPHY
DEPARTMENT OF POLITICAL SCIENCE

CURRICULUM CHANGE

1. **Type of Change:** Cross-listing
2. **From:** **PHI (POL) 218: Fundamentals of Human Rights and Peace.** 3 hours, 3 credits. Basic concepts and perspectives in the study of peace and human rights. The history and development of theoretical and practical approaches to human security. Topics may include terrorism, war and nonviolence, conflict resolution, genocide, class-, gender-, and race-based violence, notions of justice, and universal rights versus local cultural practices.
3. **To:** **HRP (PHI) (POL) 218: Fundamentals of Human Rights and Peace.** 3 hours, 3 credits. Basic concepts and perspectives in the study of peace and human rights. The history and development of theoretical and practical approaches to human security. Topics may include terrorism, war and nonviolence, conflict resolution, genocide, class-, gender-, and race-based violence, notions of justice, and universal rights versus local cultural practices.
4. **Rationale:** The Department of Philosophy, the Department of Political Science, and the Center for Human Rights and Peace Studies wish to cross-list PHI (POL) 218 (Fundamentals of Human Rights and Peace) with the Human Rights and Peace Studies Program. PHI (POL) 218 is an existing course in Philosophy and Political Science that finds its home as the foundational course of the Minor in Human Rights and Peace Studies by providing key training in concepts, methodology, and content essential to the new Minor. An added benefit is that this is a course already taught by faculty from different departments, with an eye toward multi-disciplinarity, a trend that will surely continue as the course is taught by other members of the Steering Committee and their departments.
5. **Date of Steering Committee Approval:** May 8, 2013
Date of Center for Human Rights and Peace Studies Approval: May 8, 2013
Date of Political Science Department Approval: September 24, 2013
Date of Philosophy Department Approval: September 11, 2013

**LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK**

UNDERGRADUATE CURRICULUM COMMITTEE

CURRICULUM CHANGE

1. **Type of Change:** Experimental course

2. **Course Description:** **LEH 4100:** Pre-Health Capstone Course (3 hours, 3 credits) Combines the biology, chemistry, physics, reading comprehension, and critical thinking skills acquired in pre-health coursework to achieve proficiency levels required by health-profession graduate training. Culminating project: MCAT, DAT, OAT, PCAT, or other professional admissions test. Includes writing personal statements for health professional school applications. Prerequisites: Permission of Pre-Health Advisor; ENG 111, ENG 121, BIO 166, BIO 167, CHE 166, CHE 168, PHY 166, PHY 167, CHE 232, and CHE 234. These courses may also be co-requisites.

3. **Rationale:** The pre-health sequences of courses prepare students for graduate work in health. There is a need to bring the knowledge and techniques acquired in these various courses, taken over several years, to a focus that would allow students to improve their over-all proficiency in these areas. This culminating study and review will also help students better understand the interrelationships among the disciplines and the expectations of graduate health education for integrated knowledge. The culmination experience in this review, recapitulation and reflection will be the MCAT or other professional examination.

Admission into health professional schools is extremely competitive and requires that a student to be competent on a number of levels including, but not limited to, knowledge of science, reading comprehension, verbal reasoning, writing, and analytical skills. Without a sophisticated knowledge of the admissions process, students likely remain less desirable candidates for graduate health professional schools.

4. **Learning Objectives:** After successful completion of this course, students will be able to:
 - Demonstrate an improved proficiency in STEM disciplines required in health professional schools
 - Prepare themselves by applying study and review strategies in order meet the requirements of and perform at an optimal level on standardized entrance examinations
 - Show increased levels of reading comprehension, verbal reasoning, and analytical skills

- Create individualized personal statements for their health professional school application
- Make effective use of library resources to help prepare for entrance to graduate programs
- Demonstrate a broad comprehension of the holistic nature of the health professional school admissions process

5. **Date of UCC Approval:** November 13, 2013

Lehman College Senate
Library, Technology & Telecommunications Committee
December 11, 2013

1. An upgrade is planned for Blackboard - it will begin on Thursday, **December 26 and is expected to be completed by the end of the day on December 27.** The system will not be available during this time. The upgrade will introduce a variety of new features. If you have any questions or need assistance, please contact Steve Castellano at x 8658.
2. **Last Thursday during the CUNY IT conference Mr. Joseph Middleton,** Director of Information Technology was honored with a **CUNY Excellence in Technology Award.**
3. Library is pleased Students have been availing themselves of our 16 Extended Hours - particular in the evening.
4. Library Newsletter *Biblio-Tech* is available now at <http://www.lehman.edu/library/newsletter.php>

Respectfully submitted

Stefanie Havelka

Chair

UFS Report: Lehman College Senate - Manfred Philipp

December 11, 2013

1. The Lehman College General Faculty has voted to approve the **proposed amendment to the UFS Charter**
2. The proposed new **Investment Policy Statement** at the CUNY Board Committee on Faculty, Staff and Administration (CFSA) in connection with retirement plan investments.

While the CFSA claims no authority to advise participants about the content of the plans it approves, it does, without evidence, claim to have the ability and authority to *“fairly and rigorously evaluate current and prospective investment options so that the aggregate risk and return characteristics at any point are within a range normally appropriate for participants.”*

CUNY’s own Investment Pool is governed by the CUNY Board of Trustees and the Board Committee on Fiscal Affairs and its Subcommittee on Investments, *“which is comprised of a group of professionals with a broad range of experience and perspectives. Together they are responsible for reviewing asset allocation, new asset classes, investment strategies and manager performance.”*

3. OAA is Working on a Proposed Policy Document on E-Permit

The UFS has advocated to OAA that campuses hosting an E-permit student from another campus not only collect the tuition, but also collect course fees.

OAA admits that there may be a CUNYFirst issue with having the fees be paid to the e-permit campus

The UFS also advocates consideration of Capstone courses when devising e-permit policies.

4. The Chancellery is trying to devise an assessment tool that incorporates the American Council on Education evaluation standards for **converting military experience into academic credit**. The effort represents collaboration between OAA, CUNY's enrollment management staff, and unspecified faculty.

5. **Proposal on Expressive Conduct**

The UFS Academic Freedom Committee chaired by Lehman's Peter Alexanderson, reported on the committee's discussions in last night's UFS Plenary. The PSC Delegate Assembly has demanded that the draft Policy be withdrawn from any further consideration by the CUNY Board of Trustees.

6. **Doctoral Science Program Restructuring**

The UFS held a conference on the topic last Friday. The VC for Research chairs a committee of three people from each affected campus and from the UFS. We are told that the fact of the restructuring is not up for discussion. There are **no students** on the Vice Chancellor's committee considering the issue.

7. **Board Approval of the Letter of Intent (LOI) permitting City College to propose a combined BS / MD in Biomedical Science/Medicine**

8. CUNY Central's Diversity Initiative *"is an attempt to increase black and Hispanic enrollment at the most selective senior colleges, where it has fallen off fairly substantially."* Elements under consideration are lowering SAT cutoff scores, improving recruitment generally, recruiting from underrepresented high schools, increasing freshman class sizes, and revising the SEEK application.

In NYC only 6000 black and Latino students scored over 1,000, which some define as *college-ready*. In response and in view of the Diversity Initiative, it is advocated that colleges should consider looking at a **broader range of information on applicants**, i.e. personal statements, etc."

Enrollment Management Council Meeting, Tuesday, October 8, 2013

9. **The two court cases brought by the UFS and the PSC in regard to Pathways continue.**

10. **When asked about Pathways, Mayor-Elect De Blasio has said that** *“The experience and training that faculty members bring to their profession must be taken into consideration during curriculum development, or we risk sacrificing the academic quality of our city’s institutions.”*

The PSC was the only public service union to endorse Mayor-Elect DeBlasio prior to the Democratic Primary.

10. PSC President Barbara Bowen and Columbia University Historian Eric Foner were given the **John Commorford Award** by the NY Labor History Association, last night at the 1199/SEIU Headquarters. At the event, attended by a **UFS Executive Committee** member, President Bowen emphasized the importance of the struggle over Pathways.

11. With support from CUNY Vice Chancellor Alexandra Logue, the UFS-affiliated **CUNY Academy for the Humanities and Sciences** will, this week, announce the competition for **Feliks Gross Endowment Award**. The to assistant professors in recognition of outstanding research, or potential for such, in the. Any assistant professor at any unit of CUNY whose field of expertise covers an area of the humanities or sciences is eligible to be considered for one of these awards.

12. At the October 22 UFS Plenary, Professor Jay Weiser of Baruch College requested that the UFS honor the long service to the UFS of Lehman College's **Professor Stefan Baumrin** by granting him floor privileges at plenaries. The request was passed by acclamation.

13. CUNY's report on TAP advocates that maximum TAP be increased from \$5,000 to \$6,500. CUNY in-state undergraduate tuition will be \$6,330 in AY 2015-6.

See <http://www.cuny.edu/news/publications/TAP.pdf>

14. At the UFS Plenary, Professor Kay Conway, Chair of the UFS Budget Advisory Committee, displayed a chart comparing **the number of faculty FTEs and student FTEs**. The chart showed that while net new faculty have been hired, the growth in enrollment has resulted in the ratio's being **flat from 2008 through Fall 2012**.
