

COVID Student Success Response Team

LEHMAN
COLLEGE

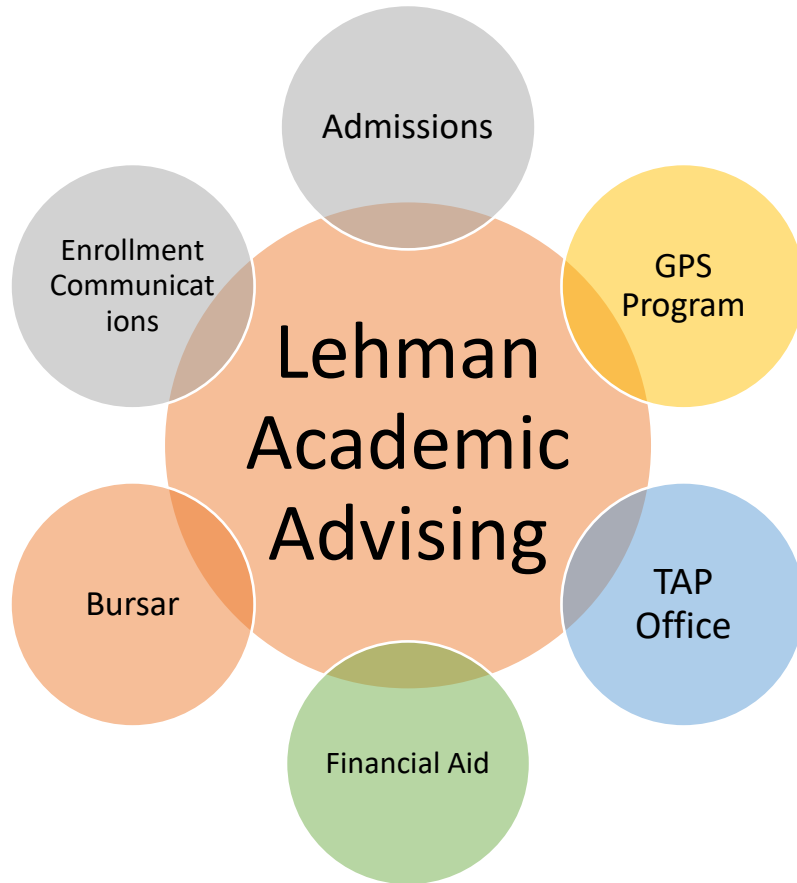

CU
NY

Goal: Minimize Impact of COVID on Stop-out Students

Targeted populations:

- Students who have postponed their studies Fall 2020 – Spring 2021
- Continuing students who have stopped out Fall 2019, Spring 2020, Summer 2020, and Fall 2020.
- Work with students with financial holds to plan a return to Lehman.

Interdisciplinary Approach

- Work with students who have stopped out with no barriers to re-enrollment - expedited readmissions process and tailored advisement and financial aid support.
- Engage students who have stopped out with barriers to re-enrollment to help them understand what steps need to be taken to rectify these barriers.
- In cases of students with financial barriers, work with them to maximize federal and state aid opportunities, the availability of CARES/MSI funding, and scholarships and grants.
- Re-introduce the college and the student experience to students who were admitted to Lehman College but have no record of enrollment elsewhere.
