Academic Momentum: Curriculum Maps

October 14th, 2021

LEHMAN COLLEGE | CUNY

Introduction

Curriculum maps illustrate the interconnectivity between course learning outcomes, student learning outcomes and institutional learning outcomes. This workshop will demonstrate the creation of curriculum maps and how they can be used as an effective assessment tool to track student performance.

At the end of the workshop, participants will be able to:

- Link curriculum maps to student learning outcomes

What are Curriculum Maps?

Curriculum Maps are a visual, term-by-term representation of the paths students can take toward a successful and timely completion of their chosen course of study.

Curriculum maps are used as guides, and they should be used in conjunction with student advising, the online bulletin, and degree audits from DegreeWorks.

Curriculum maps can and should play a key role in proactive course scheduling and planning for academic departments.
