### DESCRIPTION

Read the file above with simple instructions called “Commenting/voicethread2015_Students.pdf.” Then, click the link above that says “Introduce Yourselves and Join the Conversation.”

If you receive a message that your Adobe Flash plug-in has crashed, try reloading the plug-in as directed. If you are not successful, try another browser, like Chrome. For example, I tend to have crashes in Mozilla Firefox but not Chrome with VoiceThread.

You will hear a welcome message from the program facilitators. Using your webcam or microphone, record your own introductions on the first slide - consult the handout attached above if you’re new to Voicethread and want to learn how to record a comment.

### ATTACHMENTS

If you select a file you do not want, click Do Not Attach to remove the attachment from the content item. The file itself is not deleted.
