How does the g-force change at different points along the track? Coaster Physics makes learning all this super easy and fun, whether you actually need to know this stuff for Physics class or if you are just curious about roller coasters.				0.99	0.99
	EMD PTE	Science - MHSE	The EMD periodic table of the elements app provides detailed information, state-of-the-art functions and an appealing presentation. Learn more about the chemical elements - from classification to element features to their history of discovery. The powerful multi-lingual app renders complex contents intuitively comprehensible: the well-structured and concise arrangement of groups and periods, details for every element, intelligent controls, and numerous selection options provide quick access to needed information.				FREE	

	Frog Dissection	Science - MHSE	Frog Dissection is a greener alternative for teaching dissection in the classroom. Suitable for middle-school students who are learning about organs and organ systems as part of their life science curriculum. Students can try dissecting a virtual specimen. Virtual chloroformed specimen, dissection tools and detailed instructions to complete the procedure. Once dissection is complete, the frog's organs are exposed for further study. Vivid 3D images will help students visualize the internal organs very effectively. For enhanced learning experience, the app also has information on the different types of frogs, frogs' life cycle, anatomical comparison of frogs with humans, an interactive quiz and detailed descriptions of the organs.				3.99	1.99
	iScience	Science - MHSE	Science reference guide. iScience for iPad contains all important mathematical and physical formulas and offers a interactive periodic system with all chemical elements as well. For each formula you have the possibility to add you're specific note if you don't want to forget something important. You can assign three different priority levels to every formula so that you always find your formulas quickly again. No interaction.				1.99	1.99
	Molecules	Science - MHSE	Molecules is an application for viewing three-dimensional renderings of molecules and manipulating them using your fingers. You can rotate the molecules by moving your finger across the display, zoom in or out by using two-finger pinch gestures, or pan the molecule by moving two fingers across the screen at once. These structures can be viewed in both ball-and-stick and space filling visualization modes.				FREE	
	Rat Dissection	Science - MHSE	Back by popular demand, Punflay is adding another dissection app to its existing line-up of educational iPad apps. This time, students can experience a virtual dissection of a rat. Just like the award-winning app, Frog Dissection, Rat Dissection for the iPad has been designed for middle and high school students. The content for the app has been validated by subject matter experts to ensure accuracy. It's a great substitute for the real thing and will fit perfectly in the science curriculum.				3.99	1.99
	Scienceline	Science - MHSE	Scienceline is a student-run online magazine published by the Science, Health and Environmental Reporting Program (SHERP) in the Arthur L. Carter Journalism Institute at New York University.				FREE	
	The Elements	Science - MHSE	If you think you've seen the periodic table, think again. The Elements: A Visual Exploration lets you experience the beauty and fascination of the building blocks of our universe in a way you've never seen before. This is the US English version of The Elements. Fully translated versions are also available in French, German, Japanese, and British English.				13.99	6.99

	Xperica HD	Science - MHSE	Making science fun and interactive. Understanding science through textbooks can be hard, Xperica HD, brings the experience of touch to various science experiments to foster better understanding. Users can interact with various elements to see how the experiment as a whole reacts. Additional experiments can be purchased as add on packs for a low price. The app places an interactive virtual laboratory in the hands of students worldwide.				FREE
