

## Mission & Why We Started

Vedazzling is an e-retail store, reselling unique artisan handcrafted accessories .

For seven years, I worked in the apparel industry starting as an intern for Kenneth Cole later becoming a production coordinator for a private sleepwear label. I loved the work, but I saw white women I trained getting promoted over me. After years of adding value to companies that employed me, I made the learn to entrepreneurship by setting up an eBay store selling used and vintage items. When I was let go from my job months later, I took what I had learned and established Vedazzling Accessories. Once I obtained my wholesaler's license, I resold accessories at large events, festivals and street fairs. In the process, I developed relationships with my shoppers and by July 2011 I opened a brick and mortar store in DUMBO, Brooklyn. Vedazzling Accessories was named number 5 of the top 28 shopping destinations in Brooklyn by Yelp.
